BRIEFING

Welcome to Rallylegend 2026. Some information for competitors.

Please carefully read Bulletin No. 1 issued by Race Control. It contains details regarding the composition of the two shakedown groups and the schedule for Sunday, October 11, 2026.

Sprint Legend Race – On October 8, 2026, at 16:00, Race Control will publish the individual entry and exit times for the Serravalle Stadium, covering the transit to the start of the "Sprint Legend Race."

In the event of a red flag, cars unable to complete the race will be assigned a fair time at the discretion of Race Control. Upon completion, the cars will remain at the competitors' disposal and will not be subject to *parc fermé* regulations. Competitors must follow the race route only as far as symbol 19 on page 7 (yellow background).

SS 3 “San Marino” – Friday 9th October 2026
SS 5/8 “La Casa” – Saturday 10th October 2026

Special stages “San Marino” and “La Casa” share a common section of the route, but are driven in opposite directions relative to each other. The shared section indicated in the road book is as follows:

- Special stage 3 “San Marino”: from km 0.50 to km 1.02
- Special stages 5/8 “La Casa”: from km 2.87 to km 3.38

A chicane with an identical layout is located within this shared section.
Please exercise great caution during reconnaissance.

Special stages 9/10

Please note that the outside of the right-hand bend at km 5.95 will feature a series of protective barriers positioned within the roadway. The placement of these barriers is marked by a fluorescent orange line visible during reconnaissance. This bend is located 100 meters after symbol 17 on page 102 (special stage 9) and symbol 17 on page 112 (special stage 10).

Useful Numbers

On the “USEFUL NUMBERS” page, please replace +39 333 4823753 with +39 335 7334515.

Pirelli Jump Trophy

The section (jump) counting towards the “Pirelli Jump Trophy” is indicated in box 6 on page 64 of the road book.

Anti-cut systems

The following anti-cut systems are in place, marked on the road surface by a small fluorescent orange circle:

- Shakedown km 0.14 1 anti-cut device on the right (*)
- SS 3 “I Laghi” km 1.24 1 anti-cut device on the right (*)

(*) same anti-cut device

- SS 2 “Chiesanuova” km 0.79 2 anti-cut devices on the left
- SS 9/10 “Piandavello” km 0.08 3 anti-cut devices on the left

This is the system used:

Traffic control by the police - In the territory of the Republic of San Marino the entire road network is monitored with radars. According to San Marino law, any infringement of the rules of the Traffic Laws can be sanctioned remotely without warning or direct notification. Kindly be careful.
