## Introduction

Welcome to the Altratech SMC Stages. This is our 35<sup>th</sup> running of the event and we return to Anglesey Circuit.

Once again, we would like to extend our thanks to the team at Altratech ([www.altratech.co.uk](http://www.altratech.co.uk)) as our sponsor for this event. Having been a long time supporter of our road rally for numerous years and now our stage rally for a number of years.

The timing schedule as always is very tight for us to get the maximum use of the stages and we request your full co-operation in helping to achieve this.

Our aim is to run the best possible event for competitors and we welcome constructive feedback, good or bad, about any aspect of the rally, please fill in the questionnaire to add comments.

The stage diagrams have been reproduced as accurately as possible. Certain junctions have been tightened and there are chicanes to improve safety. These features may change from stage to stage and it is the competitor's responsibility to drive them as seen.

Please note that cars breaking down on stages may not be recovered until the next change round or even later. The time needed to do this could cause delays that ultimately mean stages will be lost at the end of the day. Your co-operation in this matter will be greatly appreciated.

If you have a query about your results, please text the results team on 07984 769 318, who will endeavour to deal with your enquiry as swiftly as possible, or complete the form on page 10.

The event noticeboard can be found online via Sportity using the event code SMC26 or <https://webapp.sportity.com/event/SMC26/0e38665b-4555-4931-ae57-d0fbac9f1546>.

GOOD LUCK

## First on Scene

**If the competitor is still in the vehicle and the vehicle is on fire GET THEM OUT IMMEDIATELY.**

**If the competitor is still in the vehicle, is responsive and there is no risk of fire:**

- **Approach from the front**, look them in the eyes
- Do they seem aware of their surroundings?
- Speak to them, ask their name - do they respond?
- Any pain, loss of feeling - if yes keep them where they are!
- **Keep them calm and keep them talking.**
- **DO NOT MOVE THEM UNTIL PROFESSIONAL HELP ARRIVES.**
- **Do nothing else**

**If the competitor is still in the vehicle, is unresponsive and there is no risk of fire:**

- Stop any life-threatening bleeding by applying direct pressure/ plugging the wound
- Ensure an open airway
- Immobilise the head and c-spine (neck)
- Check if they are breathing
- Treat any non-life threatening bleeding

**DO NOT REMOVE THEIR HELMET UNLESS THERE IS NO OTHER WAY TO ENSURE AN OPEN AIRWAY.**

**If the competitor is out of the vehicle:**

- Do not grab hold of them - they might be unaware of what is happening and become combative.
- Guide them to a place of safety away from the incident and other competitors.
- Speak to them, ask if they are OK?
- Keep someone with them.
- Once in a safe place, assess them for injuries:
  - Are they aware of their surroundings?
  - Any signs of injury / are they experiencing pain?

**DO NOT LET THEM WANDER AROUND, BUT KEEP THEM UNDER OBSERVATION**

**For all incidents, please ensure that appropriate safety warning signs, such as the Warning Triangle and SOS/OK Board, are prominently displayed to all following competing cars.**

Afterwards please write a short report for the organisers and either hand it to the first control official that you reach or to the Clerk of the Course. This report should cover the facts as you know them and include times of the incident starting and when you left the scene; always include your own details so that the organisers can, if necessary, contact you.

## Red Signal Procedure

Ch.13 App.2 Art.4.17. On any Special Stage where extreme circumstances make it necessary to neutralise the Competition e.g. where spectator safety is compromised or to authorise the movement of non-competing or Rescue Vehicles the system of Red Signals must be in place.

Red Signals will be displayed at all mandatory Radio Points preceding the incident only on the specific instruction of the Clerk of the Course or Stage Commander.

On passing a **Red Signal** displayed by a **Marshal** wearing a **Marshals'** tabard the crew **MUST** immediately and significantly reduce speed as well as being prepared to stop at any time.

At no time must a **Competitor** overtake any safety vehicle encountered on the **Special Stage** route.

The crew must then follow the instructions of any **Marshals** and / or stage safety personnel and maintain a reduced non-competitive speed until leaving the **Special Stage**.

**Competitors** must not continue until advised to do so by an **Official**.

**IN THE EVENT  
OF AN ACCIDENT**  
*LET THE MARSHALS  
KNOW YOU ARE OK*

*Note: All information correct at time of going to print. For updates and more current information please check the resource links provided. [motorsportuk.org/resource-centre](https://www.motorsportuk.org/resource-centre) | @ourmotorsportuk | #ourmotorsportuk*
