5.2Damages covered by the insurance

The Insurance Policy of the Rally organiser is covering only the damages caused to third parties or properties of third parties by the Rally organiser or by drivers entered in the rally. Any other damage suffered by the drivers or vehicles entered in the rally are not covered by the insurance.

5.3 Rally organisers' responsibility

The Rally organiser decline liability for any accident suffered by competitors or competing cars during the duration of the entire event, even in case of cataclysm, riots, demonstrations, vandalism, etc. Competitors and crew members shall suffer all the consequences (material, criminal and sporting) raised by any type of accident.

5.4 Insurance coverage

The maximum amount covered by the Insurance Policy is € 25,000,000.00 for each accident for damages to persons and for damages to goods.

5.5 Duration of the insurance coverage

This insurance, for all competitors, will become effective at the start of procedure for car scrutineering. The insurance ceases at the end of the event (Prize giving Ceremony-Podium) or at the end of the post-event scrutineering (for the selected cars), in case of withdrawal, disqualification or exclusion from the rally.

In case of withdrawal, the time taken into account will be the closing time of the following TC.

5.6 Assistance or service vehicles

Vehicles carrying "Service", "Service Park" or "Auxiliary" plates and/or any other plate issued by the Rally organiser, with the exclusion of Rally organisers' Safety and Zero cars and cars used by Officials and Delegates are not covered by the event's Insurance policy. These vehicles circulate under their owners' responsibility and shall have their own insurance.

6. ADVERTISING & IDENTIFICATION

Advertising restrictions: Tobacco and tobacco products, alcohol, betting and gambling advertising is prohibited in Italy. This law applies to competing and service cars, equipment and clothing.

7. TYRES

7.1 NUMBER OF TYRES & TYRE MARKING PROCEDURE

7.1.1 Eligible tyres

All tyres used for rally stages on tarmac and road sections must be marked «E» or «DOT» in accordance with the appropriate standard of the country in which the Competition is taking place. They must have a minimum external diameter corresponding to the period in question (see Article 8.4.2 of Appendix K) and they must not be marked «*Not for highway use*» nor «*For Racing Only*» nor imply any indication limiting, specifying or recommending a use in competition. Any alteration, modification or adaptation (which for the avoidance of doubt includes cutting of additional grooves) of tyres other than wear through normal use is forbidden. For stages run on gravel, and so declared by the clerk of the course, no «E» or «DOT» tyre marking is necessary.

a) Cars of Category 1: During Competitions classed as tarmac event (i.e. excluding gravel or snow Competitions) there shall be a **maximum of 14 tyres permitted**. Tyres must be uniquely identified with a barcode (or such other method as may be prescribed) and registered with the FIA eligibility delegate before the start of the Competition. Checks for compliance with this regulation may be undertaken at any time during the Competition and any discrepancies will be reported to the stewards. A detailed information sheet will be available before each Competition.

b) Cars of Category 2, 3 and 4: During Competitions classed as tarmac (i.e. excluding gravel or snow Competitions) there shall be a **maximum of 10 tyres said «dry» permitted**. Tyres must be uniquely identified with a barcode (or such other method as may be prescribed) and registered with the FIA eligibility delegate before the start of the Competition. Due to the lack of availability of «wet» tyres in their appropriate sizes, the cars listed as exceptions in the appendix to the FIA authorized wet tyre list may register a maximum of 14 tyres before the start of the Competition. Thus there is no allowance for additional «wet» tyres. Checks for compliance with this regulation may be undertaken at any time during the Competition and any discrepancies will be reported to the stewards. The number of «wet» tyres is not limited. Only the «wet» tyres as per the FIA authorized tyre list can be used. A detailed information sheet will be available before each Competition.

7.1.2 Tyre marking is obligatory for all the competitors.

All tyres must have a specific barcode number supplied by the 2022 FIA-approved barcode supplier. All tyres must be registered with the FIA Eligibility delegate before the start of the rally, at pre-event scrutineering.

The cars must be presented at the tyre Marking Zone with their spare wheels placed with the outer part of the rim on top, and if needed, unfastened, to facilitate the procedure. Following the marking, and before the cars departure from the tyre marking area, crews, or their team member, must properly fasten the spare wheels as required.

For Competitors taking part in the Shakedown, tyres used for the Shakedown will not be marked.

7.1.3 Tyre Marking during the rally

A wheel/tyre marking / barcode reading zone may be established at the exit of the authorised service parks or remote service zones and at the start of a stage.

The crew has to stop its car and wait for the instructions of the scrutineers and/or marshal. In the absence of scrutineers or marshals, the crew may leave the zone without stopping. A tyre mark checking zone may be established at the entrance of the authorised service parks and remote service zones.

7.1.4 Means of control

Checks for compliance with this regulation may be undertaken at any time during the rally and any discrepancies will be reported to the stewards. A detailed information sheet will be available before each rally.

7.2 TYRES USED FOR RECONNAISSANCE

Only E- or DOT-approved homologated road legal tyres are allowed. Retreaded tyres are forbidden for reconnaissance. Any treatment (ie. removing or damaging) on road tyres side markings or texts is not allowed.

7.3 NATIONAL LAWS OR SPECIAL REQUIREMENTS

7.3.1 The use of studded tyres is not allowed.
