BULLETIN #5 Itinerary Correction, VC Mileage Updates, Tech Zones

Saturday Itinerary Correction

In the Supplemental Regulations, the Saturday Itineraries (National and Regional) included time controls TC14A-C. These were mislabeled in the itinerary. The following two TCs should have been the only ones included in the itineraries:

TC14A: RGC4 Westwood Refuel In
TC14B: RGC4 Westwood Refuel Out

TC14C should not have been listed. TC14C was removed, and the itineraries in the Advance / Recce Packet and Service Packet are correct.

Tech Zones

Tech Zones may be included in the RGCs for both Friday and Saturday, before cars enter into the Service Areas.

Competitor Route Book VC Mileage Updates – SS4/8 Teepee Tower

All four Virtual Chicanes on SS4/8 were relocated. The mileage corrections are listed below:

SS4/8 Teepee Tower
