INTERMEDIATE NOVICE

Girls and Boys

Age and technical requirements are according to the ISU Technical Rules Single and Pair Skating 2024, ISU Communication 2699 and all respective ISU Communications.

Free Skating only: 3 min, +\ 10 sec

A well balanced Free Skating program must contain:

- a. maximum of **five (5) jump elements** one of which must be an Axel type jump.
- b. up to **two (2) jump combinations** or one (1) jump combination without using an Euler (half-loop) and one (1) jump sequence. Jump combinations and the jump sequence consist of only two (2) jumps. In the jump sequence, the second jump must be an Axel type jump with a direct step from the landing curve of the first jump into the take-off curve of the Axel jump. One full revolution on the ice between the jumps (the free foot can touch the ice without weight transfer) keeps the element in the frame of the definition of a jump sequence. Jumps executed in a jump sequence receive their full value. An Euler (half-loop) when used in a jump combination or sequence between two listed jumps will be called but will not be considered as a listed jump, and will not be counted in the number of the jumps of the concerned combination or sequence. After the execution of the Euler (half-loop) no change of foot is allowed. An Euler (half-loop) can be executed only once in the Free Skating.
- c. no triple or quadruple jumps allowed.
- d. only one single jump and one double jump (including Double Axel) can be repeated once.
- e. maximum of **two (2) different spins**, one of which must be a spin combination and one must be a spin with no change of position. The spin combination with a change of foot must have a minimum of eight (8) revolutions and without a change of foot with a minimum of six (6) revolutions, flying entrance is not allowed. If with a change of foot, only one level feature per foot will count. The spin in one position with a change of foot must have a minimum of eight (8) revolutions or the spin in one position without a change of foot must have a minimum of six (6) revolutions, flying entrance is allowed.
- f. maximum of **one (1) step sequence** fully utilizing the ice surface and including at least one skating movement such as a spiral, spread eagle, Ina Bauer, hydroblading etc. If the skating movement is missing, no Level will be given. At least 2 difficult turns and steps must be executed on clean edges for Level Basic. The Technical Panel will not award Feature 3) Use of body movements for at least 1/3 of the pattern and Feature 4) Two combinations of 3 difficult turns on different feet.

Levels explanations:

For Intermediate Novice Singles, in all elements only features up to Level 2 will be counted. Any additional features will not count for Level requirements and will be ignored by the Technical Panel.

The following Program Components are judged: Composition, Presentation, and Skating Skills.

The factor for Program Components is for Boys 2.0, for Girls 1.7.

Jumps executed in a jump sequence receive their full value. An Euler (half-loop) when used in a jump combination or sequence between two listed jumps will be called but will not be considered as a listed jump, and will not be counted in the number of the jumps of the concerned combination or sequence. After the execution of the Euler (half-loop) no change of foot is allowed. An Euler (half-loop) can be executed only once in the Free Skating.
- c) no triple or quadruple jumps allowed.
- d) only one single jump and one double jump (including Double Axel) can be repeated once.
