Competitors must ensure that they, and their service crews are fully aware of, and adhere to the refuelling rules:-

- **For the avoidance of doubt, refuelling in the Service Parks is prohibited.**

- The refuelling zone will consist of a self-fuel area, where competitors will be able to refuel their vehicles using their own fuel brought to the event in an appropriate British Standard approved fuel container.

- Owing to space requirements, to reduce the total fuel contained within the Refuel Zone at a given time, all fuel for each leg must be deposited with the Refuel Zone Officer in the refuel area between:

- When depositing fuel, ensure that cans are labelled with your car number (the Refuel Zone Officer & team may be able to assist with labelling) and that the Refuel Zone Officer is informed of the number of cans being deposited.

- Tagged fuel containers will be logged and released for use to the Competitor's nominated person(s) only.

- The responsibility for refuelling is incumbent on the competitor alone

- Each crew is allowed 2 nominated persons for the purpose of refuelling, and they will be permitted entry up to 5 minutes prior to their competition car - no other personnel will be permitted to enter the Refuel Zone.

- The Refuel Zone will open 07.30-08.30 on Friday 13th to allow for fuel to be taken prior to Shakedown/Scrutineering, and until 17.00 to allow for fuel to be taken for Scrutineering / prior to the start

- It is not permitted to transport fuel across the Service Parks whilst the rally is in progress.

- No one under the age of 17 will be allowed in the Refuel Zone.

- No sources of ignition, naked flame etc may be brought into the refuelling area.

- Containers should comply with the relevant British Standard, should be marked "Petroleum Spirit-Highly Flammable" and be kept from any source of ignition.

- All empty containers should be removed from the venue after the event

- Fire Extinguishers will be on hand at the Refuel Zone.

- Petrol is to be used as vehicle fuel only, not for any other purpose.

When refuelling

1. There will be a strict maximum 5MPH limit in the refuel zone.

2. Refuelling operatives, including those standing by, should ensure they are wearing protective clothing, including suitable non-absorbent gloves and eye protection.

3. Refuelling must be either by pump or from MOD/UN specification 20 litre jerry cans with the purpose made flexible metal spouts. **Funnels are NOT permitted.**

4. No other activity is permitted in the refuelling areas and the vehicle must have all four wheels on the ground – Judges of Fact will be present to monitor compliance.

BEATSON'S BUILDING SUPPLIES MULL RALLY

5. On entering the refuel area competitors will be directed to a refuel bay.
6. Empty cans may be removed, but only with the express permission of the Refuel Zone Officer
7. If a car fails to start within the refuel area it must be moved out of the area before ANY work is carried out.
8. Refuelling must not commence until there are **no occupants** in the vehicle.
9. Engines must be switched off throughout the refuelling process.

Please note that permission can be obtained to retrieve your fuel canisters during the event if you are forced to retire, by asking the permission of the event Motorsport UK Environmental Scrutineer / Refuel Zone Officer (refuel@mullrally.org). They will give clear instructions on how these containers can be collected.

Any competitor found in breach of refuelling area procedures will be subject to the following penalties.

For late deposit of self-refuel canisters and/or moving of fuel canisters around the Service Parks during the event, or breach of Refuel Area Safety Rules 1 to 7 or if you are found refuelling in an area other than the Refuel Zone, or by using commercially available pump fuel dispensed directly from pumps at filling stations on the rally route, the penalties are as follows:

In addition for Service A, to simplify traffic flows, and to ensure sporting parity among those wishing to service north vs south of Garmony, TC 2D Service Out has been moved to the western exit of Salen, and Refuel Zone 2 is now within service park / service time.

With reference RS 2C - RS 2D, RS 9B - RS 9C, and RS13B - RS13C, please replace / modify Road Book pages 37-40, 69-72, and 95-99, with the following:
