**12.19 LED Repeater (new article)**

A LED Repeater, provided by SAS as part of the usual kit (including wiring and mounting plate), will be mandatory in all competing cars and must be installed before scrutineering in the driver's direct line of sight, in accordance with the user guides supplied by SAS. The LED Repeater repeats key safety messages from the tracking system (e.g. Red Flag, SOS/Hazard/Road Blocked, Push-to-Pass, Flying Finish), allowing the driver to keep eyes on the road while still receiving critical information. It is also intended to attract the crew's attention to consult the tracking screen for more detailed information. It does not replace flags, boards or marshals, but is an additional visual aid to help crews react quickly and consistently for their own safety and the safety of others.

## 12.20 Qualifying winner presentation

Fastest crew will be stopped and held at the stop line area until a faster crew arrives or the QS finishes.

Winner presentation will be held at the Stopline area after QS has finished. No penalties for being late from TC

TZ due to being delayed at the Stopline will be applied by the Clerk of the Course.
