14.1 Climate

The climate of Croatia varies from Mediterranean along the Adriatic coast to continental, inland. The coastal areas have hot, dry summers and rainy winters yet the inland areas are cold in winter and warm in summer. The coast benefits from refreshing winds in the summer and the mountain ranges shield them from bitter winds in the winter. Sea temperatures never fall below 10 degrees in the winter and in August it can be as high as 26 degrees, due to warm currents flowing north up the Adriatic coast. In spring and early summer a
