

INSTRUCTIONS FOR USE MIREO GPS
TRACKING DEVICE

MIREO GPS SYSTEM

English

Robert Tatarić

INTRODUCTION

The Mireo GPS tracking device is designed to track the movements of competitive vehicles for the duration of Rally for safety reasons.

Competitors pick up the device during the "Verification" with a driver's license deposit, and at the time and place specified by the race organizer as the "Special Competition Regulations".

Installation of the device is carried out in the "SERVICEA ZONE" and is carried out by the competitors themselves or their mechanics. In case competitors do not have a connector model used to connect Mireo GPS devices (Fig. 2), they can get them from the Mireo operator for an additional cost of 2€/15 kn.

During the competition switch on the Mireo GPS device (fig. 1.) , must be in position "0". If there is a need for intervention (firefighters, emergency medical attention), the switch is switched to position "1" (SOS), and in the HQ Rally, an "SOS ALARM" is activated with the starting number of competitors and its position on the speed test (BI/SS) or stage.

During the race, the return of the device will take place at the HQ Rally, within the estimated time set by the organizer. This applies to competitors who have missed or completed the competition for any reason.

Other competitors return the devices after the last time check (TC 12A), and before entering "Parc Ferme" unless the organizer decides otherwise.

For all necessary information or assistance when installing the device, the person responsible for

INSTALL MIREO GPS DEVICES

When connecting the device, a connector (Fig. 2) is used, with a marked polarity (+/-).

- connect the Mireo GPS device directly to the vehicle battery of the 12 V;
- place the device on a protective cage with a number box up (Fig. 3) and attach it to plastic bindings, except in cases approved by operator Mireo GPS when controlling functionality at technical reception.
- control of the functionality of the Mireo GPS device, is carried out during the "technical inspection" at the time and at the designated place provided by the organizer.

For non-compliance with the installation instructions, due to which the Miro GPS device (incorrectly connected +/-) was replaced or by returning the damaged device, the fee is charged 100 €/ 750 kn in cash and immediately pays the operator Mireo GPS.

UVOD

Mireo GPS uređaj za praćenje dizajniran je za praćenje kretanja natjecateljskih vozila za vrijeme trajanja Raliy-a iz sigurnosnih razloga.

Natjecatelji preuzimaju uređaj tijekom „Verifikacije“ uz polog vozačke licence, a u vrijeme i na mjestu koje je organizator utrke odredio "Posebnim Pravilnikom natjecanja".

Ugradnja uređaja izvodi se u "SERVICEA ZONE" i provode je sami natjecatelji ili njihovi mehaničari. U slučaju da natjecatelji nemaju model konektora koji se koristi za povezivanje Mireo GPS uređaja (slika. 2), mogu ih dobiti od operatera Mireo-a uz nadoplatu od 2€/15 kn.

Tijekom natjecanja prekidač na Mireo GPS uređaju (slika. 1.) , mora biti na poziciji "0". Ako postoji potreba za intervencijom (vatrogasci, hitna liječnička pomoć), prekidač se prebacuje na poziciju "1" (SOS), a u HQ Rally-a, aktivira se "SOS ALARM" s startnim brojem natjecatelja i njegovim položajem na brzinskom ispitu (BI/SS) ili etapi.

Tijekom utrke, povratak uređaja odvijat će se u HQ Rally-a, u predviđenom vremenu koje odredi organizator. To se odnosi na natjecatelje koji su iz bilo kojeg razloga propustili ili završili natjecanje.

Ostali natjecatelji vraćaju uređaje nakon zadnje vremenske kontrole (TC 12A , a prije ulaska u "Parc Ferme" osim ako organizator ne odluči drugačije.

Za sve potrebne informacije ili pomoć prilikom instalacije uređaja odgovorna osoba je

INSTALIRANJE MIREO GPS UREĐAJA

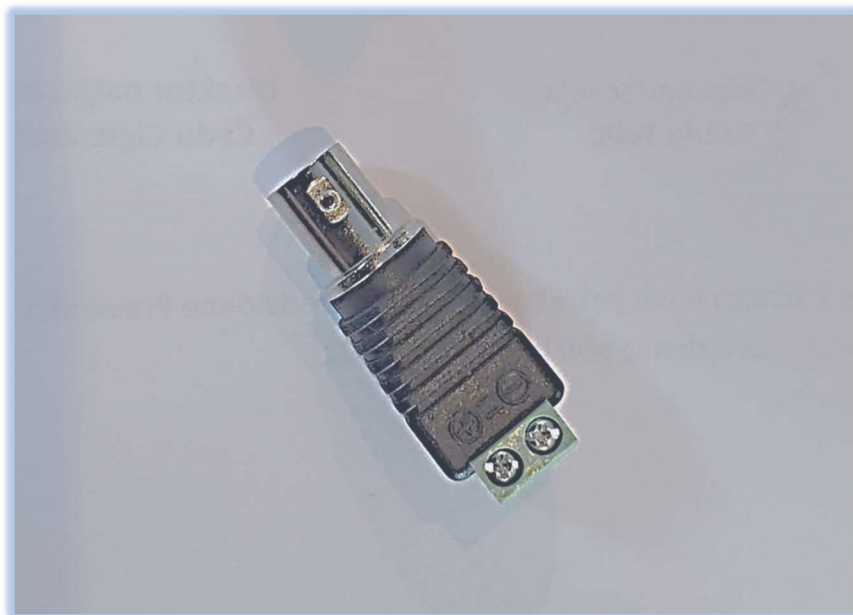

Prilikom povezivanja uređaja koristi se konektor (slika 2), sa označenim polaritetom (+/-).

- spojite Mireo GPS uređaj izravno na akumulator vozila od 12 V;
- stavite uređaj na zaštitni kavez s kutijom s brojem prema gore (slika. 3) i pričvrstite ga plastičnim vezicama, osim u slučajevima koje je odobrio operater Mirea GPS prilikom kontrole funkcionalnosti na tehničkom prijemu;
- kontrola funkcionalnosti Mireo GPS uređaja, provodi se tijekom "tehničkog pregleda" u vrijeme i na predviđenom mjestu koje osigurava organizator;

Za nepoštivanje uputa za instalaciju, zbog kojeg je zamijenjen Miro GPS uređaj (neispravno spojeni +/-) ili vraćanjem oštećenog uređaja, naknada se naplaćuje 100 €/ 750 kn u gotovini i odmah plaća operateru Mirea GPS.
