A qualifying round of:

Brick & Steel Border Counties Rally 2023

Welcome to the Brick & Steel Border Counties Rally, the 2023 version and the great scenery and brilliant forest stages which the Borders provides.

The team at Hawick & Border CC and Berwick and District MC were delighted to win the Bill Turner Trophy for Best Event in the 2022 BTRDA series on our return to the championship and we look forward to bringing you as good a rally if not better this year, no pressure!

Andy Jardine is our new Clerk of the Course and brings a wealth of experience from the Pirelli, Wales Rally GB and of course Mull amongst others.

Many elements of last year's well received route are retained and we've added some mileage in Craik unused by any event since 2019. Service continues at the mart at Newtown St. Boswells, visited twice with the start and finish at Jedburgh Abbey.

Events like ours cannot take place without the work put in by many volunteers and the backing of businesses both locally and nationally. We are indebted once again to John McClory of Brick & Steel Construction for his support. We also share his sadness at the sudden loss of his co-driver and great friend David Hood in recent weeks, he will be greatly missed.

Please join us for what one crew described as 'A brilliant event, well run, great stages and beautiful scenery'.

A warm Borders welcome awaits, see you in May!

Article 19. Medical Assistance / Tracking

1. In addition to using the SOS/OK board procedure, the event will also use an in-stage vehicle tracking system (Sport Traxx), which will consist of a vehicle mounted device that will track the progress of each competitor throughout the event. Cradles for the tracking devices will be issued at Noise Test. The tracking devices will be issued in Abbey Place, Jedburgh prior to the start of the event.
2. Should any competitor retire prior to MTC 1, the tracking device **MUST** be returned to the Sweeper car or to Rally HQ. Failure to return the tracker will result in the competitor being liable for the cost of a replacement.
3. In the case of an accident where urgent medical attention is required, the following applies:
 - The SOS display on the safety tracking device must be activated as soon as possible.
 - When possible, the red "SOS" sign should immediately be displayed to the following cars and to any helicopter attempting to assist.
 - As soon as possible, the red triangle must be placed in a conspicuous position on the same side of the road as the car at least 100 metres before the car's position, in order to warn following drivers, even if the car is off the road.
4. Any crew which has the red "SOS" sign displayed to them, or which sees a car which has suffered an accident and the OK sign is not shown, shall immediately and without exception stop to render assistance. All following cars shall also stop. The second car at the scene shall proceed to inform the next radio point. Subsequent cars shall leave a clear route for emergency vehicles. All crews stopping under this procedure will be allocated a time.
5. In the case of an accident where immediate medical intervention is not required, or of a car stopping for any other reason on or beside a special stage, whether temporarily or permanently, the following applies:
 - The OK display on the safety tracking device must be activated within one minute.
 - The green "OK" sign must immediately be displayed to the following cars and to any helicopter attempting to assist. If the crew leaves the vehicle, the "OK" sign must be displayed so that it is clearly visible to all the other competitors.
 - The red triangle must be placed in a conspicuous position on the same side of the road as the car by a member of the crew at least 100 metres before the car's position, in order to warn following drivers, even if the car is off the road.
6. Should it not be possible, or for whatever reason, to display the OK/SOS board in any of the above situations, this may be replaced by an evident and clearly understandable sign language shown by the crew outside of the car:
 - An arm and thumb up to indicate "OK"
 - Crossed arms above the head to indicate "SOS".
7. Any crew which is able but fails to comply with any of the above rules will be reported to the Clerk of the Course who may apply a penalty.

How and where to fit the Cradle

- Place the cradle in the centre of the dashboard making sure it is fixed securely.
- Make sure the velcro strap is placed under the bracket before fixing it in place.
- The Tracking unit must have free view of the sky through the windscreen.
- The OK & SOS buttons must be visible to both crew.
- We encourage that the cradle remains in place for future events.

Tracker Instructions

- The tracker will be handed to the crew before the first TC switched ON ready to go.
- Under the supervision of a sporttraxx representative the crew will fit the tracker to the cradle.
- The unit must remain ON at all times even if you have retired from the event.
- If you require medical assistance press the **SOS button for 3seconds and repeat again after 5 seconds.**
- A blue LED light will show on the tracker to notify the crew their SOS request has been received.
- If you have stopped in the stage for any other reason you must press the OK button within 1 minute for 3 seconds this will notify us that you are OK and don't need assistance.
- Failure to press the OK/SOS button within the time will be reported to the organisers and penalties maybe applied.
- At the final control Sporttraxx personnel will collect the tracker
- Should you retire please hand the tracker to the sweep car or return to Rally HQ with your damage declaration.
- Failure to return the tracker or any damage caused to the unit will result in a £300 penalty to replace the unit. If the tracker isn't returned or payment hasn't been made for loss or damage to the unit you will be reported to MSUK (regulation C.1.1.13) and your licenses suspended until payment is made or tracker has been returned.
- If returning by post send recorded delivery only or you will be responsible for the replacement cost of the tracker should it go missing.
