Traffic speed limits (signs) in the area of the Special Regularity Track DO NOT affect the average speed given by the organizers for the whole distance of each route. The organizers have set timing points at locations along the Special Stage. The results will present the times you achieved from the start to point A, from the start to point B, etc. The timing will be done from A (starting point) to B (timing location), A to C, A to D, etc
On self start regularity stages, cars will start per minute and in the same order as the one of depart from TC
