DAILY BRIEFING

DO NOT CUT THROUGH CROPS

The selective section will be very fast over the first 130 kilometres, requiring concentration and precision. Stay on the track, as there are many traps at the edge. The pace will then slow down with sections between olive trees, before picking up again. Take care on the few sections with stones. The last 2 kilometres will be very winding.

There are still many gates to go through, which are not always clearly visible and are sometimes very narrow. Take care in the dust.

There are still many narrow concrete bridges with edges that are not always visible, often covered by vegetation with small concrete channels on the edges to allow water to pass through. **Do not cut corners, stay on the track** and be even more careful in the second part of the special stage.

OPENING FEEDBACK

ORGANISATION

AUTOMÓVEL
CLUB DE PORTUGAL

DAILY BRIEFING

Very fast, mostly on good terrain, slightly slippery in places. Some side ditches; it is FORBIDDEN to cut corners at bends and intersections. Hazards are not easily visible off the paths
