Introduction

The Abu Dhabi Desert Challenge is one of the world's oldest and most prestigious international cross-country rallies. The event was founded in 1991 by Emirati motorsport legend and current FIA President H.E. Mohammed Ben Sulayem, and is organized by the Emirates Motorsports Organization (EMSO).

The event rapidly gained global fame with all the biggest names in international motorsport attempting to conquer the dunes of the UAE's unforgiving Rub'Al Khali Desert, the world's largest sand ocean.

34 years in, and thanks to the patronage of Abu Dhabi's Government through the strategic partnership with the Abu Dhabi Sports Council and energy partner ADNOC Distribution, the Abu Dhabi Desert Challenge has earned the reputation of being an event run to the highest safety and organizational standards, where participants can benefit from Abu Dhabi's world-class infrastructure. Today, the Desert Challenge is considered by competitors to be the most technical race on the calendar.

Celebrating its 35th edition the event returns with an emphasis on sustainability, and with added racing thrills, 2026 will see the event return to Al Ain for the Start of the Rally. Introduction of a new rally bivouac in Madinat Zayed and the action reaching new areas of the Al Dhafra region. Finally, the event will return to Al Ain for the Finish as we look forward to celebrate the final round of the W2RC season.

Sustainability

All competitors and team members must at all times respect the FIA / FIM and Organizer's environmental rules:

It is compulsory to use an environmental mat (or other effective and approved system) to prevent soil and water contamination at events. The Environmental Mat must be composed of an absorbent upper part and an impermeable lower part and must be used wherever work on vehicles/motorcycles is allowed by the organizers.

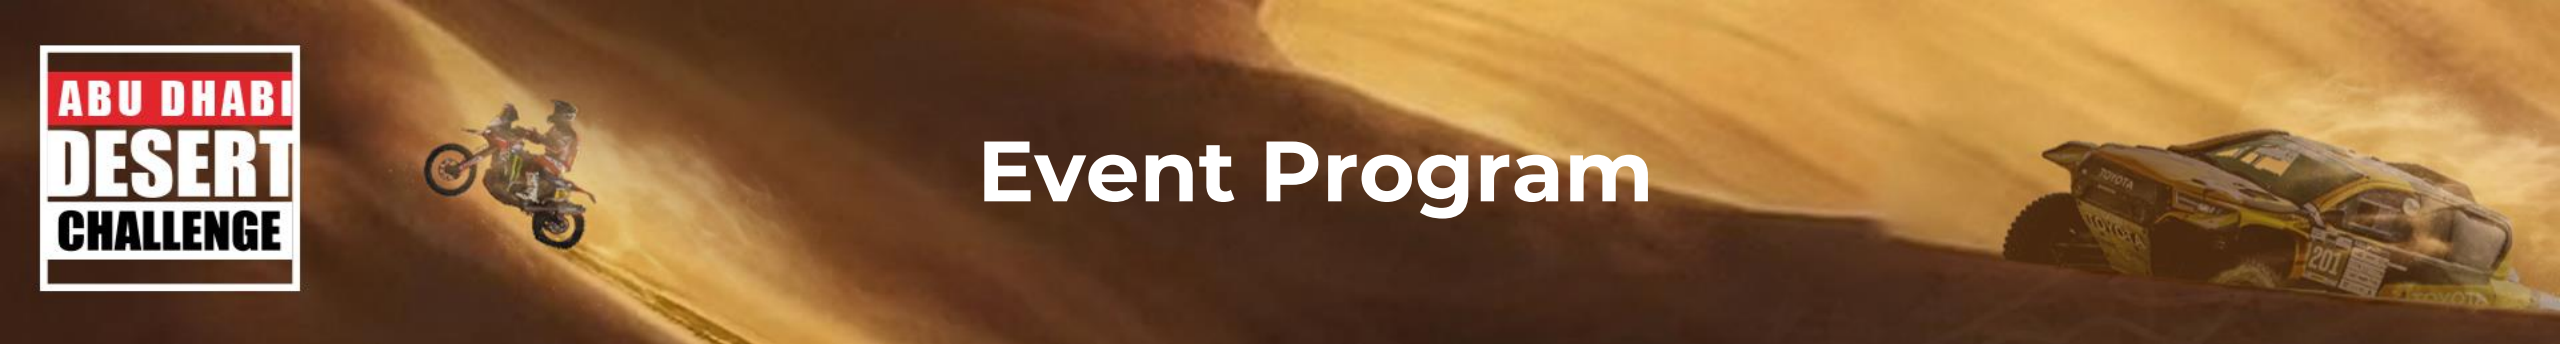

- In the Parc Ferme.
- In the paddock at all events.
- Under all waste oil and fuel containers provided by the organizers.
- At all official refueling points.
- Under all thermic powered generators and power washers.

Cleaning of vehicles/motorcycles, equipment and parts, where permitted by the regulations, must only be carried out at places with cleaning facilities. Only water without the addition of chemical products (for example detergent, even if it is eco or biodegradable) is permitted.

Each participant and/or team member is responsible for the waste generated by his team during the event. Organizer's containers for waste must be used as directed.

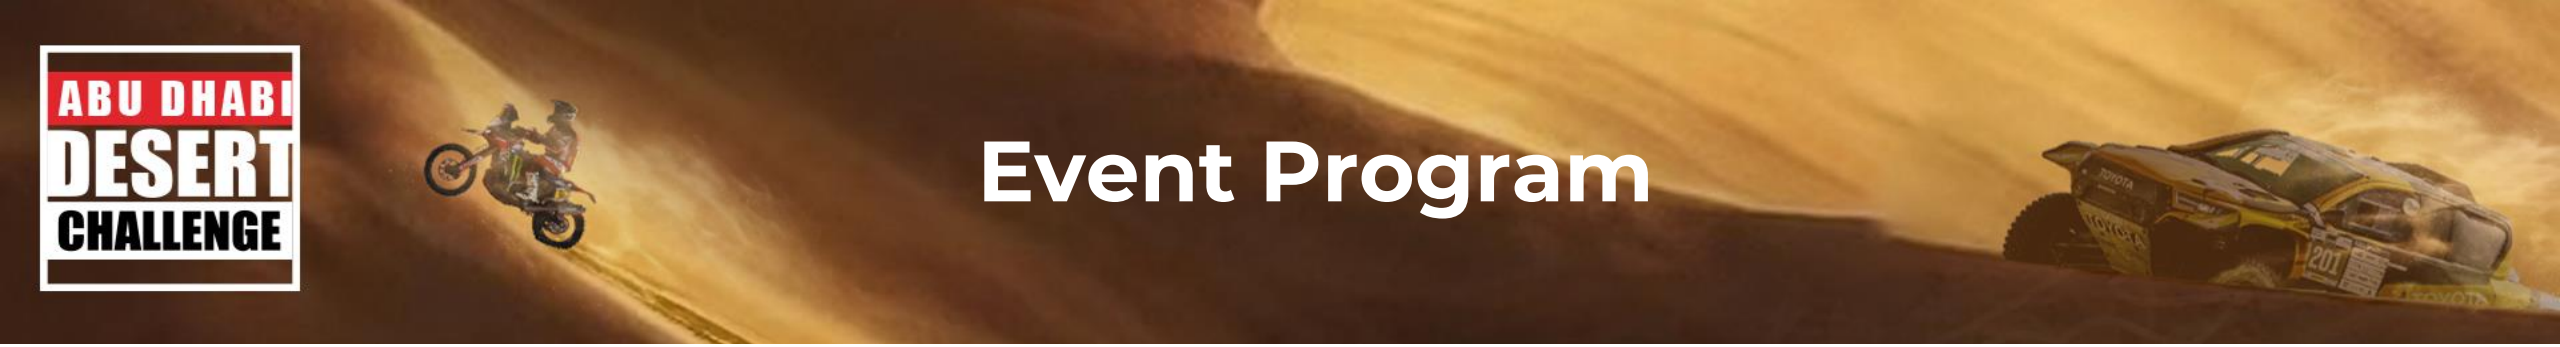

Respect all other rules and guidelines of the event.

All sustainability related documents, regulations and codes, are available on the ADDC website.

Malle Moto

Rules

TIME CARD MANAGEMENT

At the finish of a Stage, the Rider will give his Time Card to the Chief Marshal of the TC End of Stage, at the bivouac entrance; the Marshal writes their time of arrival and gives the Rider their time card back; the Rider goes straight to the “MALLE MOTO Bivouac” area and gives his Time Card to the person in charge of the area. A maximum time of 10 minutes must be respected.

At the Bivouac, it is mandatory for the Rider registered in “MALLE MOTO” to set-up and make all/any service and repairs and sleep in the dedicated area, located close to the catering tent. This implies compliance with the following rules.
Only the Rider is allowed to:
• transport his tyres and wheels to a tyre changing service;
• work on their machine or on a damaged part;
• set up and dismantle his tent.

Riders of the "MALLE MOTO" Challenge must not receive any outside help. Only Service between Riders of the "MALLE MOTO" , still in the race, or by the Organization's staff dedicated to this category will be authorized.
Any other Service will be sanctioned, the penalty may go as far as the disqualification of the Rider from the category.

Riders may take their Machine or a damaged part out of the “MALLE MOTO” area only after having informed the person in charge of the area. Riders must be accompanied by a member of the Organization, from the “MALLE MOTO” team, to carry out certain exceptional operations:
• Any repairs requiring specific equipment not available in the “MALLE MOTO” area, after agreement from the technical commissioner (welding, machining, suspension repairs, etc.).

Malle Moto

Rules (continued)

These repairs must be carried out by Riders themselves under the supervision of a member of the Organization accompanying him;

- Carry out tests;
- Refuel their Machines;
- Clean their Machines.

In case of litigation, the area manager will make a written statement to the Officials with the time of absence and the reasons.
If it appears that the type of operation does not comply with this article and/or that the spirit of the category is not respected, the Rider shall be excluded from the Challenge and may therefore no longer benefit from the related services.

In the event of withdrawal, the Rider:

- will continue to have access to his personal belongings and to sleep in the “MALLE MOTO” area;
- may in no case provide any form of Service to the remaining “MALLE MOTO” Riders still in the race.

Safety & Tracking Equipment

Tracking

The ADDC will use **Marlin**k for the tracking system. If you are not familiar with their Iritrack system, it is advised that you visit their resource page below on the Marlink website and or contact them below with any questions. Additional information will be provided at the competitors briefing and in the supplementary regulations in regards to the operation of the Iritrack system or can be found in the 2026 FIA Cross Country Rally Sporting Regulations, Appendix V1, Section 12.1.1.

Website:

English : Abu Dhabi Desert Challenge Marlink Iritrack - ESHOP Marlink Events

French : Abu Dhabi Desert Challenge Marlink Iritrack - ESHOP Marlink Events

Spanish : Abu Dhabi Desert Challenge Marlink Iritrack - ESHOP Marlink Events

For support contact: services.events@marlink.com

The rental cost of the Tracking/Safety system (Iritrack V3) and Timing system is NOT included in the Entry Fee.

For Iritrack V3 you will require to purchase a mounting kit with one of two options below if you have not used it before and already own the required mounting kit.

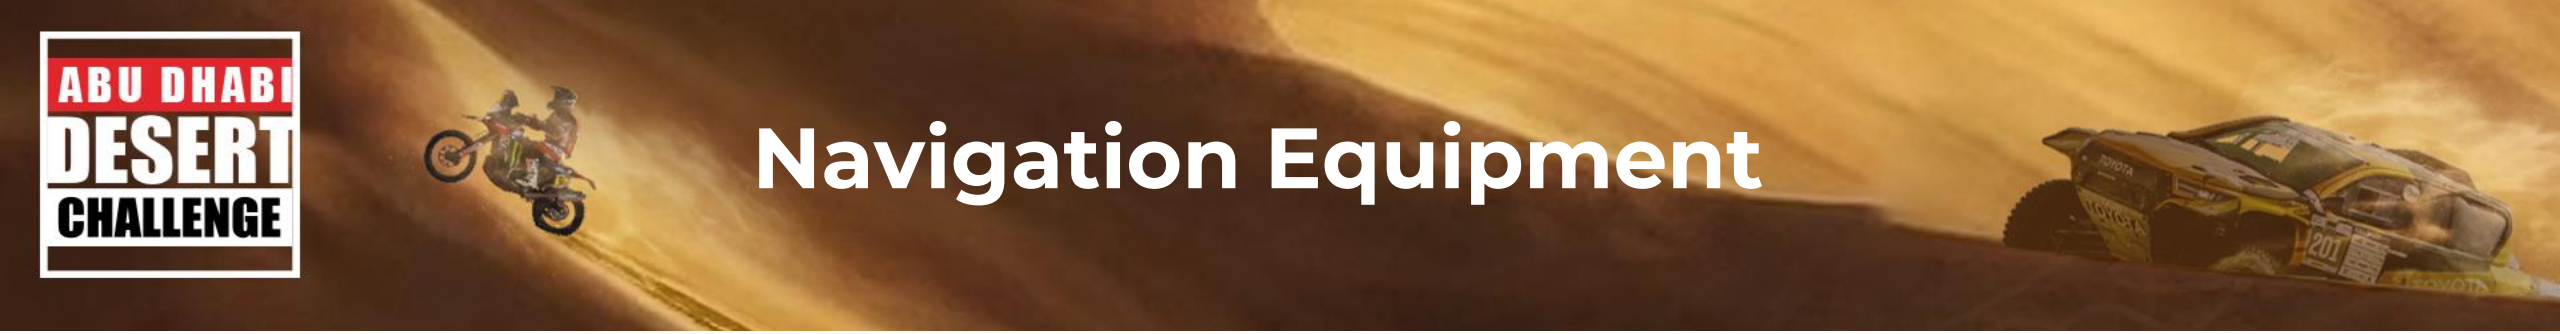

• Purchase a complete mounting kit online (Power cable, bracket, antennas) from the Marlink Eshop. Shipping is possible to the UAE in approximately 3-4 days.

• Purchase the complete mounting kit at the administrative checks. In case you choose this method, please be aware that you may have little time to set it up before your allotted time for scrutineering.

Installation of the mounting kit, your vehicle must be fully equipped with the iritrack kit at the technical checks and ready to plug the Iritrack in. You can find more information and mandatory instructions in the mounting guides provided on the Marlink website mentioned above.

Deposit

Competitors will be required to lodge a **deposit of €1500** at event registration to Marlink directly; afore-mentioned deposit will be reimbursed upon the safe return of the Tracking and Timing Equipment in the Documentation room.

Navigation Equipment

Navigation and Safety equipment

The ADDC will continue working with **ERTF** to provide navigation and sentinel for competitors.

The cost of these devices is **NOT** included in the Entry Fee and must be paid directly to ERTF.
ERTF will request a **deposit of €1700** for the material.

The electronic road book will be used for this rally for both FIA Auto and all FIM competitors.

Temporary Import/Duty Free Solutions into UAE

ATA Carnet

UAE customs accepts ATA Carnet to facilitate duty free temporary import. ATA Carnet could be obtained through the authorized chamber of commerce in your country. Please ensure no consumable items such as spare parts, oils and merchandise (if any) are mentioned on ATA Carnet.

Temporary Import Deposit

UAE customs allows temporary import against 'temporary import duty deposit' which is 5% of your shipment value. Our logistics partner **DSV Solutions** would facilitate temporary import deposit upon arrival of shipment at UAE port/airport. Items can be listed on shipping commercial invoice and packing list and sent to arshed.ahmed@dsv.com

Note: All spare parts and oils are entitled to duty + VAT and will not be treated as temporary import. Present customs regulation apply customs duty at 5% of CIF value or customs assessed value + VAT 5% of duty +CIF value.

Storage option before or after ADDC

EMSO has arranged for teams coming into the UAE to compete at the ADDC event, a storage option for rally vehicles or service trucks. The storage is an open yard that is located at the Jebal Ali Karting Track. The location is secure with 24/7 security onsite. Teams may store their equipment there and access can be provided to them to return and conduct service/repairs on their vehicles if needed.

Storage is free of charge for teams registered in ADDC.

- Contact for booking: Jerome@emso.ae
- Google location : Jebel Ali Karting Track
- Operating Days/Hours of the yard : 7 days a week from 08 AM – 10 PM
- Limited access to power is available. Teams wishing to do service work, may need to provide their own power.

Useful General Information

Time Zone	GMT + 4 (four hours ahead of Greenwich Mean Time) throughout the country all year.
Currency	The official currency is UAE Dirham, commonly abbreviated as AED (locally as Dh or Dhs.). The UAE Dirham is pegged to US Dollar at approximately 3.67 AED to 1 USD
