

Road Book

Competitor Safety Information

First Competitor on Scene

If the competitor is still in the vehicle and the vehicle is on fire **GET THEM OUT IMMEDIATELY.**

If the competitor is still in the vehicle, is responsive and there is no risk of fire:

- Approach from the front, look them in the eyes
- Do they seem aware of their surroundings?
- Speak to them, ask their name - do they respond?
- Any pain, loss of feeling - if yes keep them where they are!
- Keep them calm and keep them talking.
- **DO NOT MOVE THEM UNTIL PROFESSIONAL HELP ARRIVES.**
- Do nothing else

If the competitor is still in the vehicle, is unresponsive and there is no risk of fire:

- Stop any life threatening bleeding by applying direct pressure/ plugging the wound
- Ensure an open airway
- Immobilise the head and c-spine (neck)
- Check if they are breathing
- Treat any non-life threatening bleeding

DO NOT REMOVE THEIR HELMET UNLESS THERE IS NO OTHER WAY TO ENSURE AN OPEN AIRWAY.

If the competitor is out of the vehicle:

- Do not grab hold of them - they might be unaware of what is happening and become combative.
- Guide them to a place of safety away from the incident and other competitors.
- Speak to them, ask if they are OK?
- Keep someone with them.
- Once in a safe place, assess them for injuries:
 - Are they aware of their surroundings?
 - Any signs of injury / are they experiencing pain?
 - **DO NOT LET THEM WANDER AROUND, BUT KEEP THEM UNDER OBSERVATION**

Afterwards please write a short report for the organisers and either hand it to the first control official that you reach or to the Competitor Relations Officer. This report should cover the facts as you know them and include times of the incident starting and when you left the scene; always include your own details so that the organisers can, if necessary, contact you.

SAFETY & ACCIDENT PROCEDURE

Competitors must carry an A4-size white board with a red SOS on one side and black OK on the other (letters to be a minimum of 12cm high with a minimum stroke width of 1.5cm), with means to secure them on display for oncoming Competitors.

In the case of an accident where urgent medical attention is required, the following applies:

- The SOS display on the safety tracking device (if fitted) must be activated as soon as possible.
- The red “SOS” sign must be displayed as quickly as possible to alert following cars and aid any aircraft attempting to assist.
- The Emergency Red Warning Triangle must be placed at least 100m down the stage, appropriate to the approaching speed of following competitors to provide a visible advanced warning.

Any crew that sees a red SOS sign displayed on a car, or sees a major accident where both crew members are inside the car but not displaying the SOS sign, must immediately and without exception stop to give assistance. Where present the crew must operate the SOS function on the Tracking Console in their own vehicle and that of the crashed vehicle where accessible. All following cars must also stop and the second car arriving at the scene must inform the next radio point. Subsequent cars must leave a clear route for emergency vehicles. All crews stopping under this procedure will be allocated a time.

In the case of an incident where immediate medical intervention is not required, or of a car stopping for any other reason on or beside a special stage, whether temporarily or permanently, the following applies:

- The OK display on the safety tracking device (if fitted) must be activated within one minute.
- The green “OK” sign must immediately be displayed to the following cars and to any aircraft attempting to assist. If the crew leaves the vehicle, the “OK” sign must be displayed so that it is clearly visible to all the other competitors.
- The Emergency Red Warning Triangle must be placed at least 100m down the stage, appropriate to the approaching speed of following competitors to provide a visible advanced warning.

Any crew failing to comply will be Disqualified following a Judicial Hearing pursuant to Section C and reported to the ASN.

Competitors who misuse the SOS or OK signs will be penalised and may be reported to Motorsport UK for further action.

Where a Tracking System is being used, a competitor encountering a hazard

other than described in NCR 13.7.12 must operate the Hazard function on the Tracking Console and await further instructions from officials.

Competitors who misuse the Hazard function will be Disqualified following a Judicial Hearing pursuant to Section C and reported to the ASN for further action.

A 'hazard' is defined as any situation or incident on a Special Stage which is considered to be creating a safety issue that affects the safe passage of Competitors through that Stage.

The location of safety radios are indicated in the Road Book and by boards on the stage. A yellow radio board will be 100m prior to the radio point and a blue radio board at the radio location. There will always be a radio at the stage start and stage finish.

Red Flag Procedure

On passing a Red Flag displayed by a marshal wearing a marshals' tabard, the driver **MUST** immediately and significantly reduce speed as well as being prepared to stop at any time; at no time must they overtake any safety vehicle they encounter on the special stage route. The driver must then follow the instructions of any marshals and/or stage safety personnel and maintain this reduced speed until leaving the special stage.

Failure to comply with this rule will incur a penalty at the discretion of the Clerk of the Course.

COMPETITOR INFORMATION

Special Stage Signs

All special stages will be laid out in accordance with the Motorsport UK General Regulations, please note that signs or arrows may not always be visible on the stage, therefore competitors should always refer to the information provided in the tulip diagrams.

Recovery

A recovery vehicle will pass through each stage to extricate competitors after the course closing car has passed; depending on available time, stages being run twice may not be cleared until after the second use. Competitors must not leave the stage without permission of the stage commander.

Timing

The following key points apply;

Maximum permitted lateness between Main Controls is 15 minutes. Main Controls are situated at the Start, Regroup and the Finish. The penalty for booking out of a Main Control late is 10 seconds per minute.

There is no penalty for booking into other controls late provided that maximum lateness is not exceeded.

Get Jerky Rally North Wales 2026

The target time for road sections and the target and bogey times for special stages are detailed on the time cards and in this road book.

Driving Standards

The organisers ask all competitors to drive carefully on road sections to minimise inconvenience to other road users, ample time has been allowed for road sections. Driving Standards Observers will be on patrol and Police speed traps may be in operation.

Please pay particular attention in areas designated as slow and quiet in the road book, these areas are particularly sensitive and problems could result in future permission for the event being withdrawn.

Start

The event starts from the Cattle Market, Welshpool please arrive at least 5 minutes before your due start time and park as directed by the marshals. Ensure that your tracking device is activated before you leave MC 1. A start time list will be available at signing on and at MC 1.

Finish

The finish control is situated at the 7 Stars Car Park, Welshpool, vehicles required for post event scrutiny will be notified at the final control. A representative of the competitor must be available to take the car directly to the post event scrutineering venue. (Directions will be given to the required competitors)

Retirement

If you are unfortunate enough to retire, please submit your damage declaration form either via the next time control or directly to the sweeper car or Rally HQ. Please phone Rally HQ (Number in final instructions) as soon as possible.

SERVICE INFORMATION

There is one central service area at the Cattle Market, Welshpool. Service vehicles will not be permitted to leave the service area during the day unless they are recovering a car that has retired.

Refuelling en route is only allowed at filling stations using pump fuel from the forecourt pumps or in the designated refuel area at the Cattle Market, Welshpool, there is no refuelling permitted at individual service locations.

NOTES

Get Jerky Rally North Wales 2026

The new Sporttraxx Rally 2G/4G Tracker with external Keyboard

The best Sporttraxx Tracker ever

Easier installation :

- Fully battery operated for up to 5 days
- No power cables needed
- No holes drilled in the roof thanks to internal antennas
- Tracker is fitted to windscreen with nanogel
- Keyboard is fitted with nanogel, or cableties or screws
- Smallest size and weight
- Maximum flexibility in positioning the Keyboard for an

Easier compliance with the basic FIA safety requirements:

- SOS Med/SOS Fire/Hazard/OK buttons are easily reachable by both members of the crew even in a rolled over car, with fastened seat belts
- Full visibility of RED Flag notifications, and its easy acknowledgement by both members of the crew

Extended GSM coverage

- Access to both 2G (GPRS) and 4G (LTE-M) networks
- Multiroaming SIM Cards connecting to EE, Vodafone, O2, 3, EIR networks
- New watchdogs for better and faster reconnections in difficult areas

Higher GPS resolution

- Up to 1 position per second when car is moving, typically 5 seconds for battery saving purposes
- Improved internal buffer

Get Jerky Rally North Wales 2026

Installation procedure

The tracking set is made of 3 parts:

1. The USB-C Cable
2. The Tracker
3. The Keyboard

At scrutineering, a Sporttraxx Technician will install the tracking device to the roll cage and position the keypad in the most central part of the car so it's possible for both crews to reach the keypad.

At the end of the rally, both the tracker and keypad will be removed by a Sporttraxx technician at the final control of the event.

If you retire from the rally, make sure to return all three parts to a Sporttraxx technician or hand it in to the sweeper car if you are still in the stage.

Loss or damage to the Tracker and/or the Keyboard will incur a charge of £300 for each device, this will need to be paid before your next.

Failure to pay the fee will result in you being reported to MSUK.

How to use it

The Tracker will be delivered/installed and turned ON by Sporttraxx technicians.

You are not allowed to switch OFF the tracking device during the whole duration of the rally.

- If a Medical Intervention is required, press the  button till you hear the Beep
- When a Fire is reported, press the  button till you hear the Beep
- To inform Race Control about a Hazard situation or a Road Block, press the  button
- To confirm to Race Control that you are fine, after your stop, press the  button

 The green led bar confirms the reception of any of your transmissions. It also means a "call back" request when on Road Sections. Reset it by pressing OK

 The red flashing led bar (+ buzzer) means RED FLAG. Press the OK button to quit the warning and acknowledge its reception. React accordingly
