NOTES FROM THE ORGANISER

1. Deceleration Area between Flying Finish and STOP Control

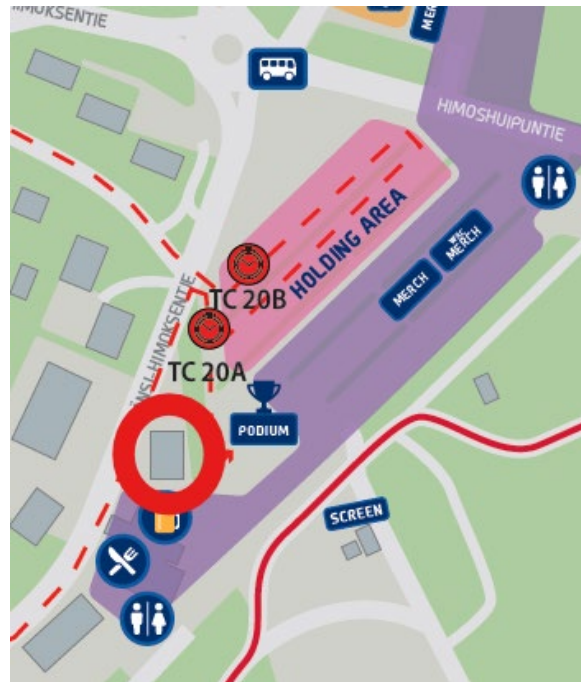

A deceleration area according to the FIA International Sporting Code, Appendix H, Art. 5.5.4.1.c, will be established between the Flying Finish of a special stage and the STOP control on all stages. This will be done with a chicane consisting of two plastic cones placed on either side of the road.

During the reconnaissance, the cones will be on the side of the road to mark the location (see picture below). The distance from the Flying Finish to the chicane is marked in the SSF tulip box of each stage in the Road Book.

2. Drivers' Lounge at the Power Stage Regroup

A Drivers' Lounge will be set up in a restaurant next to the Power Stage Regroup (see picture below). Small snacks, fruit and water will be served in a quite space limited for crews only.

3. Signing of Bulletin No. 1

All competitor representatives are reminded to visit the Rally Office to sign their reception of Official Bulletin No. 1.

Kai Tarkiainen
Clerk of the Course
