
Date: 30.8.2024**Time:** 22:50 hrs**Subject:** BULLETIN NO: 2**Document No:** 1.2

From: The Clerk of the Course**To:** All competitors / crew members

Number of pages: 2 Attachments: 3 (6 pages)

APPROVED BY THE FIA – 30.8.2024

A) Amendments to the Supplementary Regulations of the Rally

8. FUEL

8.4 Locations of refuel zones during the rally (add)

An additional Remote Refuel zone is added only **for Rally1 And Rally3 cars and only** after SS11. Each Rally1 and Rally3 car is allocated a maximum of 10 litters of fuel at this additional RZ.

Competitors will reach this RZ following the road book after the finish of SS11 from page 137 box 32 up to the refuelling zone as organised previously after TC 9C. After the refuelling crews will follow the road book from page 141 box 2 where instead of turning to the left, they will turn right and then follow the road book from page 159 box 32 to TC 11A.

9. RECONNAISSANCE

9.5 Reconnaissance over SSS 12

All crews, no matter if they are coming following the recce road book after the end of SS10 or coming from the highway, will enter the "Sirios complex" following the green arrows in **Attachment 1 (Recce SSS layout)**.

Following marshals' instructions, they will reach the orange dot (box A) from where they will start taking their notes, since the actual start/finish are on the highway and will only be checked visually.

Crews will follow the road book (**see Attachment 2**) from sign 4 up to sign 10 (box B) where they will U-turn to the right to return to (box A) for the second run.

Following marshals' instructions, crews will reach the Stop control and from there on, following the original road book, they will join the highway to drive; Group A to SS 8 Thiva and Group B to Lamia SP.

It must be noted that some parts of the route from the start point of the SSS reconnaissance to the U-turn and back to the start is a two-way route and crews must be very careful and follow marshals' instructions.

12. OTHER PROCEDURES

12.6 EKO Super Special Stage (add)

12.6.1 In the holding area after TC 11A, crews using only tools carried in the rally car, are allowed to install extra lights (carried in the car or brought to the regroup by a team representative). No other work is allowed in this regroup.

12.6.2 The start order for the EKO Super Special Stage will be based on the order the rally cars will arrive at TC 11A. Two cars will proceed to the start of the stage. They will start with a difference of one (1) minute, following the same route up to the finish which is the same as the start line.

12.6.3 The next two cars will start as soon as the second rally car of the previous pair has reached the Stop Control. **Attachment 3 (SS12 Layout)**.

12.6.4 In the SSS route there are 3 circular obstacles. Competitors must follow the arrow indication on the obstacle. In case they will miss the obstacle they will be penalised by 25''(?).

12.15 Car Wash facility (add)

On **Saturday, September 7** the official car wash facility will be available before the entrance of the Service Park on the side road, where the Media Zone is usually organised.

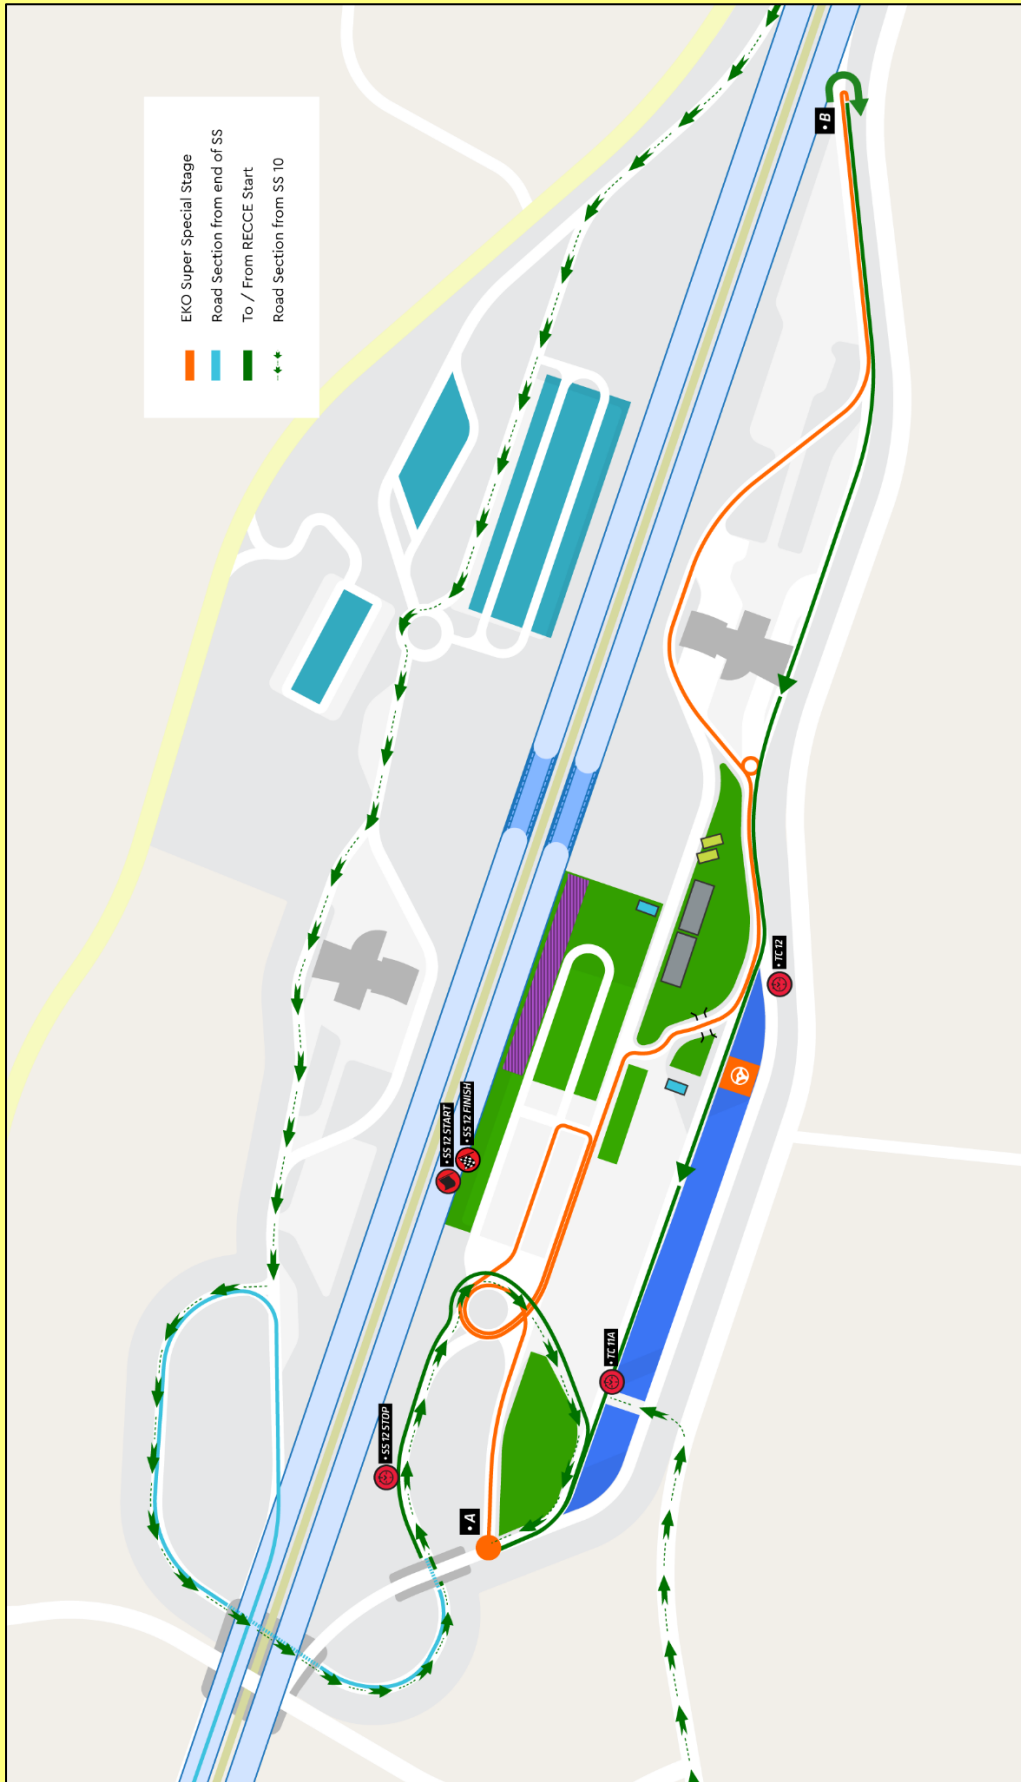

B) Amendments to the Itinerary and Road Books

- Recce Layout of SS12 - EKO Super Special Stage **Attachment 1**
- Road Book SS12, **Attachment 2**
- SS12 – EKO Super Special Stage Layout **Attachment 3**
