METTET – TYRE REGISTRATION UPDATE

IMPORTANT – TYRE REGISTRATION UPDATE

Because with the barcode number and the RFID number are not the same on Hoosier tyres, the Competitor must bring all the barcode numbers of the tyres they are going to use in this Competition to the tyre supplier on site. The tyre supplier will synchronise these numbers and then give this information to the FIA.

This applies to previously registered tires.

If the Competitor is going to use tyres which have been purchased from Hoosier in the past but not used in the Championship, these tyres must be taken to the tyre supplier on-site so that the RFID can be checked.

All Competitors must also complete the tyre registration form as before.

METTET SPECIFICS

World RX Semi-Final one

The driver that TV asks to stop for a race end interview is required to stop should stop for interview; there is parc-ferme after SF1 so the driver has time for the interview.

TV will not ask any of the top three in SF2 to stop for interview.

METTET SPECIFICS

RX2e and RX1 Finals

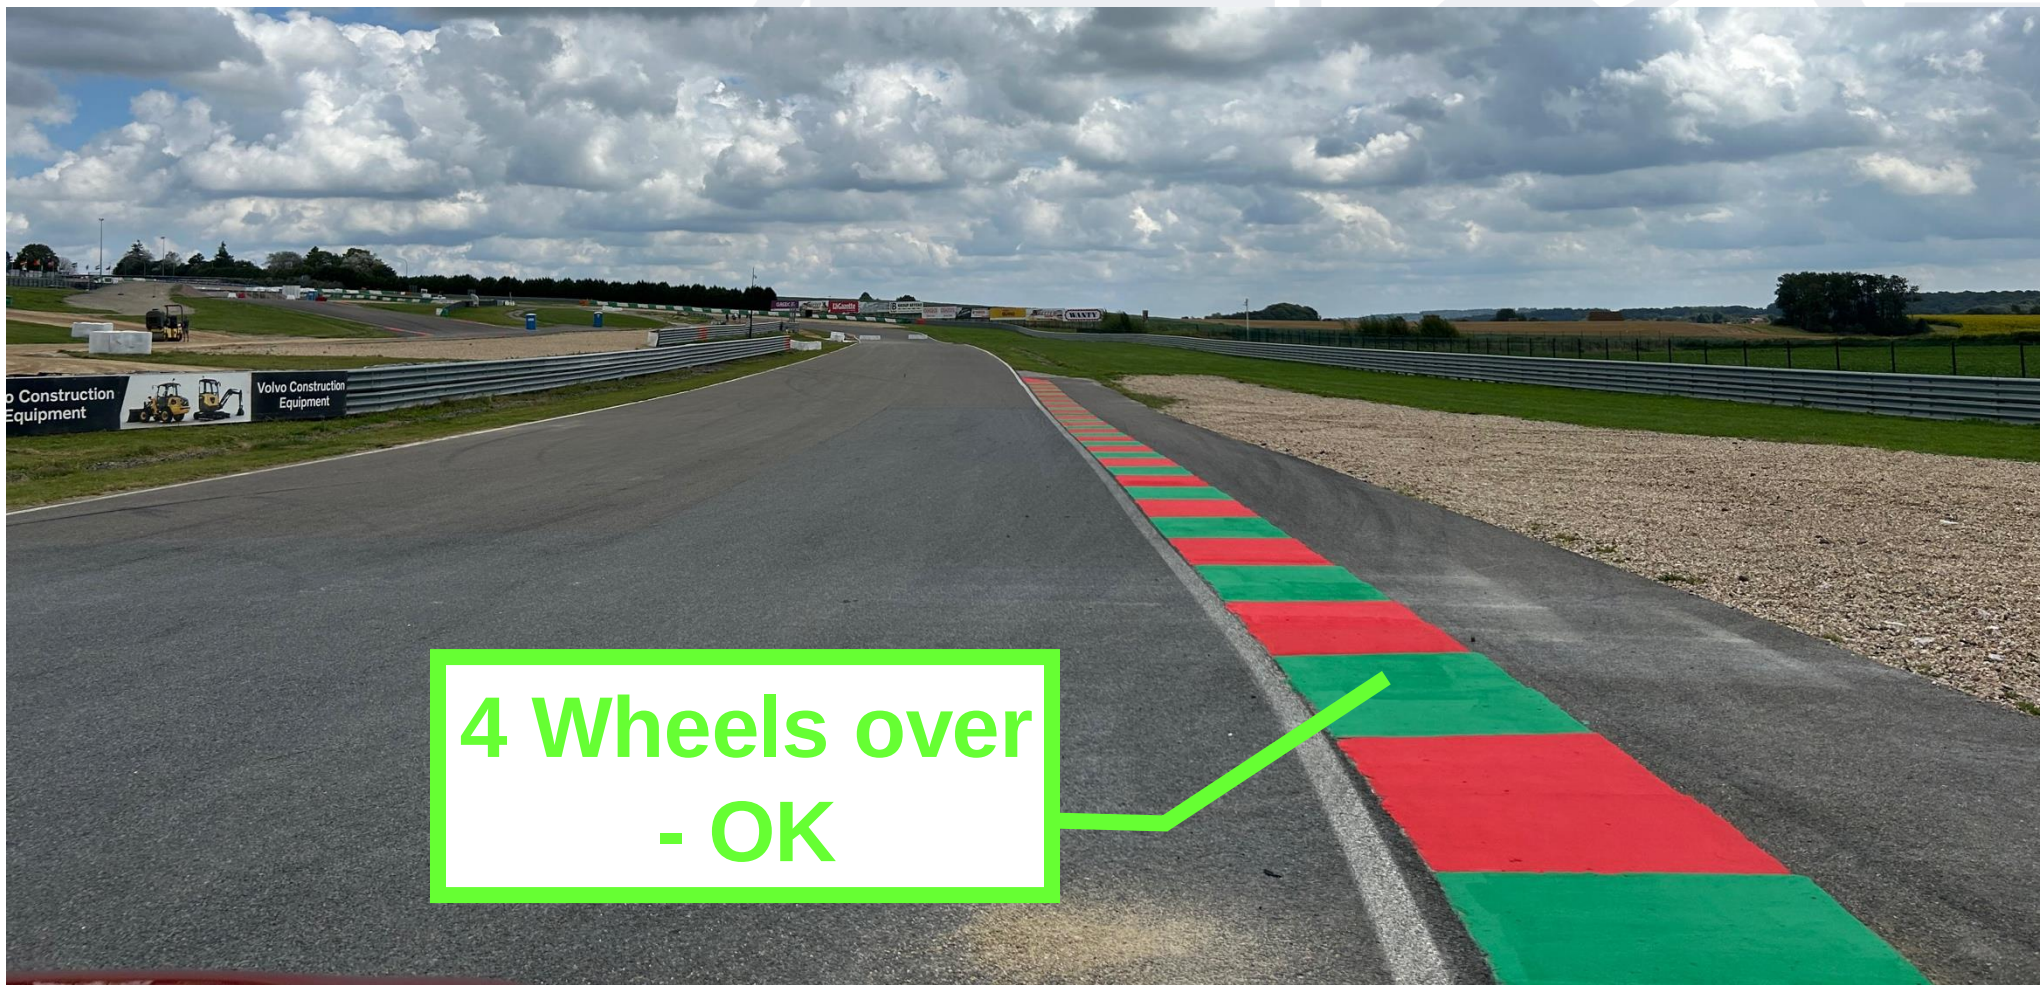

The winners of the finals must **not stop** to celebrate on track – both races are in the live hour and on-track celebrations may cause delays.

You have the benefit of being in the broadcast TV show, so we need you to respect that we have a very tight schedule.
