

Bulletin/PM 2

2025-08-01

Amendment to Bulletin 1 Under the section "Service" on page 2, the first line is removed! The sentence that is removed reads: "It is NOT permitted to change suspension struts before SS 1-4 or after before SS 5-12."

Addition to the Schedule Day 2 and Roadbook After SS12, all participants drive via the square in Hässleholm to then roll in to the finish at Hässleholmsgården, where early arrival is permitted. The schedule and roadbook describe The Square as TC12A and the Finish as TC12B with an ideal time of 10 minutes.

HOWEVER, as it is not uncommon for crews to be delayed in the square during prize ceremonies and interviews, it is required that the ideal time between the square and the finish is calculated from the departure from the square instead of from the arrival time. Hence this addition that TC12B is the departure from the square and TC12C is the finish. The ideal time remains 10 minutes, and early arrival at the finish is still permitted.
