

RE: Recce Route Recommendations and Suggested Schedule for Teams

Dear Prescott Rally Participant –

As a competitor of this event several times over the years and as a seasoned co-driver, I realize the need for effective and meaningful recce of the stages. I have compiled two different scenarios for recce based on 1-pass or 2-pass recce for this years event. Please note the following bullets:

-Unless you begin recce on Thursday, 2-passes of each stage in the 2 configurations is impossible. Please realize, review, and be informed of the fact that your speed will be monitored using RS Lite. Please ensure that this is running on your phone prior to leaving town for recce. There are times when you may come to a stage start then remember to activate RS Lite... or forget it entirely. You must have service to begin recording, and recording is mandatory for all recce participants per ARA bulletin 2024-4.

-Please also remember to affix your sticker for recce to the upper righthand corner of your windshield. This is will be verified during recce at some point (supplemental regulations).

-Review the other expectations in the supplemental regulations for recce rules, as some events may be different than others.

Realize that recce is open. You may do single, double, or beyond passes at any route of your choosing. I have compiled an effective way to accomplish recce. Please bear in mind that while on recce, 2-way traffic may be possible at any point. We are guests to these roads and we want to get invited back in the future!

Keep in mind that recce is open on Thursday between the hours of 0800-1800; and Friday 0700-1200. You must register during the allotted hours to receive your materials and packets for recce.

Without further ado, and for your viewing pleasure:

2024 Prescott Rally Recce Potential Schedules: 2-Pass  
Recce

2 Pass starting Thursday

Origin	Destination	Time Travel (mins)	Mileage (miles)	Time of Day 0800 start time
