

Safetytips for the Bosnia Rally

Dear participants,

for your own safety and to ensure an unforgettable adventure, we request you to pay attention on the following safety tips and regulations for your participation at the Bosnia Rally:

1. It is not a Race! There is no time-taking. Please ride within your drivers skills and capabilities.
2. We request you to stick to the speed limitations and restrictions. Both, given by law and by the organisation of the event.
3. Please show up at the daily briefing in the evening. There you will receive important and necessary information and safety advices concerning the track for the following day. Please bring pencil and paper to make notices as required by you.
4. Do not leave the official tracks in the landscape, be aware of mines!!
5. In case of emergency or accident: maintain own safety, keep calm, provide first aid and help to you and others. If necessary inform the organisation, give position/coordinates.
6. Know your equipment and navigation system.
7. Technical breakdowns and flat tires are primarily to be fixed by yourself. For the case of an unrepairable or unridable bike, there will be technical pick-up by 4x4. (e.g. clutch failure, broken rim, etc...)
8. For bikes with or without tube, carry repair kit and spare tube.
9. Mousse is preferred/advantageous.
10. Every bike needs to be equipped with an first-aid kit. Available for about 10€ at motorcycle stores like Motorrad Louis or Polo.
11. Personal required medicine you on prescription shall be organized by you in advance.
12. We recommend you to take a small travel medical case filled with pain-relieve creme, anti vomit or diarrhea pills,....
13. Small pocket light or headlamp shall be taken with you.
14. Take sufficient water/drinks and additional sports nutrition as required per day with you, like powerbars, dextrose, etc...
15. In the afternoon of every riding day, make a time check and estimate, if destination (Adria Ski Kupres) can be reached within timed deadline. If not, consider going straight back on the road.
16. Get a bosnian Sim-card for your mobilephone in advance, e.g. at a gasstation when entering Bosnia. It is cheap. But Bosnia is not falling under the EU Roaming. Let it be setup by the salesman.
17. If you plan not to take part on a certain riding day of the Bosnia Rally, please inform the organisation at that morning that you dont start. Please do not do your own riding plans without informing the organisation in advance.
18. Have fun, enjoy and stay safe.

kind regards, see you in Kupres
