Stage comments

The stage is varied between sand pistes, hors pistes in dunes and fast pistes.

The first 90km are more sandy.

Attention: 21,98km descent danger3.

Pay also attention in the valleys with many crests and non-visible descents behind them.

Big care at 48,55km as you turn right after a crest, with a ravine on your left, careful this is a Dangerous spot!

94,40km: enter a sandy pass between mountains, this is a long uphill with very soft sand and very Narrow. Don't hesitate to deflate!

At the end of the uphill, there is a stony passage and a fast piste on sandy plateau.

The last 60km of the stage are very fast.

Attention at 164,28km: danger3 crossing a big piste, travelling big ditches.
