Dear Neil,

It has been brought to our attention that certain Competitors are unable to obtain the required road section insurance for Competitors under the age of 19, please see below an exemption letter directly from our Legal Counsel. As you'll see below, it is considered an Official Document of the event and should be published as such, together with informing those listed in the letter below. It's important to note that this is for the affected competitors only, all other Competitors should continue to abide by the General Regulations as outlined in the 2024 Yearbook.

To the Organisers of the Event:

In order to overcome the hiatus regarding RTA insurance for the road sections of the Event in respect of Driver Competitors under the age of 19 who have been unable to obtain RTA cover, for those road sections, the ASN Hereby exempts those affected crews from all and any obligation for the named Driver to drive the entered car on those road sections.

The Co-Driver is hereby permitted to drive the entered car on those road sections but not on the Competition stages. This permission is subject to the obligation for the Co-Driver to hold and to produce, if requested by the Organisers, evidence of the relevant RTA cover, the minimum which is acceptable being third party, in accordance with the RTA.

It is requested that the Scrutineering Team, on attending the Start location of the Special Stages, pay particular attention to these Crews to ensure that Harness and FHR installation is correct.

For the avoidance of doubt this permissive exemption is limited to the Event.

This e mail letter permission is an Official Document of the Event pursuant to 2024 NCR A.2.4, D.8.1.1 and 8.1.4 and R.5.4.3 and is to be published accordingly and a copy provided to the Clerk of the Course, the Chief Scrutineer and the ASN Steward.

-ENDS-

Hope that helps, any issues or queries please do come back to me.

Kind Regards,

JJ
