12.6.2. Passage control // 12.6.2. Prehodna kontrola

After SS2 and before TC2A **TC2B**, a passage control **PC2A** is mandatory for all crews. The passage control is marked in the roadbook and is located 350m before TC2A **TC2B** in the parking lot. The marshals at the passage control will mark the vehicle's passage on their time card and then give the competitors a signal to leave the control. The purpose of the control is to prevent the formation of a traffic jam of vehicles in front of the entrance to TC2A **TC2B**, due to the very narrow section of road. // Po HP2 in pred ČK2A **ČK2B** je za vse posadke obvezna prehodna kontrola **PC2A**. Prehodna kontrola je vrisana v potni knjigi in se nahaja 350m pred ČK2A **ČK2B** na parkirišču. Sodniki v prehodni kontroli bodo prehod vozila označili v časovnem kartonu in nato tekmovalcem dali znak za odhod iz kontrole. Namen kontrole je preprečevanje ustvarjanja kolone vozil pred vhodom v ČK2A **ČK2B**, zaradi zelo ozkega odseka ceste.
