

WINTERRALLYE – STEIERMARK

Standard Supplementary Regulations for the 19th Winterrallye-Steiermark from 15th to 17th January 2026

PROGRAMME

1 st July 2025	Publication of the Regulations. Entry opening date
1 st August 2025 15 th December 2025 1 st January 2026	1 st Entry closing date. 2 nd Entry closing date Last Entry closing date
15 th January 2026 – 15:00-18:00 16 th January 2026 – 07:30-08:30	Administrative checking. according to detailed timetable. Hotel Kongress-Leoben A-8700 Leoben, Austria
15 th and 16 th January 2026	Scrutineering - according to detailed timetable.- Hauptplatz Leoben- Austria
16 th January 2026 10:00	Publication of the list of crews admitted to the start.
11:01	Start of 1st leg, Hauptplatz Leoben
22:00	Arrival of 1 st day Hauptplatz Leoben
23:00	Publication of partial unofficial results and start times for next leg.
17 th January 2026 08:01	Start of following leg, Hauptplatz Leoben
17:30	Arrival of last leg, Hauptplatz Leoben
19:00	Publication of the provisional final results
20:00	Dinner and Prize-giving, Arkadenhof Publication of the final results
After Prize-giving	End of official part of the rally

OFFICIAL NOTICE BOARD is displayed on SPORTITY

And / or from 15th to 18st January 2026
in the Rallye-Office - Place: Hotel Kongress / Reception

1 - ORGANISATION

1.1 - Definition

The organiser of the 19th Winterrallye >> which takes place between 15th and 17th January 2026 is the Organisation MK-Hotelbetriebs.GesmbH :
Langgasse 10, A-8700 Leoben.Österreich
Email: www.winterrallye.at

Rally Center during the Competition between 15th and 18st January 2026 is in the Hotel Kongress in Leoben.

The Competition is run in compliance with:

- the FIA International Sporting Code («the Code»),
- the national historic regulations applicable,
- the present Regulations and eventual Bulletins,
- the Highway Code of Austria.

1.2 - Organising Committee

Chairman: DI Kurt Schimitzek
Members: Mr. Max Klarmann, Mr. Alexander Maier,

1.3 Officials during the Competition

Race Director:	Mr. Kurt Schimitzek
Clerk of the course:	Mr. Kurt Schimitzek
FIA observer:	tba
Steward(s):	Mr. Alexander Maier Mr. Thomas Brückner Mr. Nikolaus Schögggl Mr. Marcel Monse Mr. Robert Sailer
Scrutineers (local appointments):	Mr. Thomas Brückner tba
Chief scrutineer:	Mr. Alexander Maier
Competitors' relations officer:	Mr. Alexander Donner Mr. Thomas Brückner
Secretary of the Competition and Backoffice:	Mr. Thomas Brückner tba
Results service:	Marc Stoll Solutions
Timekeeping:	MI-RALLY
Roobook and Scouting of the Itinerary, Backoffice	Mr. Kurt Schimitzek Mrs. Barbara Maier

1.4 - Supplements to the Regulations

The provisions of the present Regulations may be amended if necessary.

Any amendment or any additional provision is announced by dated and numbered bulletins, which form an integral part of the present Regulations.

Any bulletin issued after the beginning of administrative checking must be signed by the steward(s).

These bulletins are posted in the Rally Secretariat and on the official notice boards and are also directly communicated to the participants, who must acknowledge receipt by signature unless this is materially impossible during the running of the competition. The message by the WRS-SPORTITY-App or mobile phones is possible and binding.

1.5 - Application and Interpretation of the Regulations

The clerk of the course is charged with the application of the present Regulations and their provisions during the running of the Competition. Any case not foreseen in the present Regulations is judged by the stewards.

In case of any sporting dispute over the interpretation of the present Regulations, the German text is binding.

2 - ELIGIBILITY - TITLE

The results of the "Winterrallye-Steiermark" counts for the Österreichische Staats-Meisterschaft des ÖMVV.
(www.oemvv.at/staatsmeisterschaft)

WINTERRALLYE – STEIERMARK

3 - DESCRIPTION

3.1 – Event

This event will be conducted in accordance with the international and national sporting regulations and their annexes, the event announcement including any implementing regulations (bulletins) yet to be issued, and the provisions of the Austrian Road Traffic Act (StVO), the Austrian Motor Vehicle Act, and the Austrian Motor Vehicle Act Implementing Regulations.

3.1.2 – Furthermore, the rally will be held in accordance with the AMF Sporting Regulations, in particular the AMF Guidelines for Regularity Rally Competitions and the AMF Regulations for License-Free and Approved Small Slaloms. For all procedures not specified in this event announcement, the AMF Rally Sporting Regulations, as amended, will apply accordingly. The regulations and provisions can be viewed at www.austria-motorsport.at. Amendments, additions, or supplements to this event announcement will be published exclusively by means of dated and numbered implementing regulations (bulletins).

3.1.2 – In addition, the rally will be conducted in accordance with the AMF Sporting Regulations, in particular the AMF Guidelines for Regularity Rally Competitions and the AMF Regulations for License-Free and Approved Small Slaloms.

3.1.3 - The interpretation of the Notice of Rally or the Implementation Regulations, as well as the decision on all further questions arising therefrom, is the responsibility of the Rally Director, who will decide in accordance with the FIA's international sporting regulations. The organizer reserves the right to postpone or cancel the event. Force majeure releases the organizer from fulfilling its obligations.

3.2 - The "19th Winter Rally Styria" will take place over 2 days, covering approximately 750 km, with 5 stages, 8 time controls, and 18 special stages (SS) (tests including regularity and target time trials), the length of which is approximately 250 km.

3.2.1 - All Regularity- and Target times will be counted towards the overall result. There are no dropped scores. At the discretion of the stewards, time compensation may be granted for assistance to other participants or in justified special cases, or the respective classification may be adjusted to the average of the times achieved.

3.3 – Roadbook

The route description, including time checks, checkpoints, breaks, etc., is provided in a detailed roadbook with road maps at various scales. This roadbook gives the crews all the information they need to navigate the route correctly. (Chinese characters, route sketches, drawings, etc., are also possible.) For difficult passages through towns, the enlarged, detailed map sections are valid.

4 - ELIGIBLE VEHICLES – INSTRUMENTS - LICENCES

4.1 A driver wishing to enter a vehicle for this Competition must ensure that, at the date of scrutineering and for the duration of the Competition, his vehicle is road-legal for the countries in which the Competition is running. The organizer may refuse a car not complying with the period specifications, «spirit» and aspect. The organizer may combine and/or subdivide any class.

The cars will be divided into the following classes >>

- 1) vehicles built between 01/01/1946 and 31/12/1960
 - 2) vehicles built between 01/01/1961 and 31/12/1970
 - 3) vehicles built between 01/01/1971 and 31/12/1980
 - 4) vehicles built between 01/01/1981 and 31/12/1995
 - 5) vehicles built between 01/01/1996 and 31/12/2025
- cars of class 5 shall not count for general classification.

The eligible cars will be selected by the organizer who has the sole right to accept or to refuse the entry, without justifying any reason.

4.2 - Freedom is given to crews to decide on trip meters and other electronic instruments or equipment without any restrictions. All models (distance, time, average...) are authorised, regardless of their operating mode and type of display.

4.3 - Licences are not required as well as no FIA Historic Technical Passport or other FIA-documents. Only the official documents for the vehicle must be submitted at scrutineering at the latest (see also Article 10.1).

5 - ELIGIBLE CREWS - ENTRY FORMS - ENTRIES

5.1 - A crew is made up of the first driver plus one or more crew members (codrivers) as specified on the entry form. The entry form must be filled out correct and completely and sent together with the full entry-fee and a 3/4 picture of the car to the organizer before the date of 1st or 2nd entry.

5.2 – An exchange of. Codrivers can be reported at the latest one hour before the start, with the consent of the organizer. The exchange of an entire crew or the registered vehicle is not permitted.

6 - ENTRY FEES – INSURANCE

6.1 - Individual entry

The entry fee for each car with 2 persons (driver and codriver) until the 1st August 2025 is fixed at 1200,-- Euro inc. VAT. After this date until the 15th December the entry fee is 1.400,-- Euro. After that date the entry fee is 1.600,-- Euro.

This entry fee includes the organisation of the rally, the participation, lunch on Saturday, all necessary documents, rally plates, start numbers and the result services and the price-giving dinner on Saturday (see applications and description of the event) All extras (drinks, side orders, arrangements, etc.) must be paid by the competitor.

6.2 - Entry fees are refunded

6.2.1 - in full to the candidates whose entry has not been accepted,

6.2.2 - in 50% in the case of a cancellation by the competitor before the 15th December 2025. After the 15th December 2025 the entry fee will not be refunded.

6.2.3 - In case of a cancellation by "force majeure" the entry fee will be held by the Organizer and counted for the next event " (see conditions of participation)

6.3 - Insurance:

6.3.1 - The participants are obliged to prove the legally required vehicle liability insurance. Foreign participants must carry a "green insurance card" with them.

6.3.2 - The Organizer provides the legal insurance to the crews: (Hiscox Insurance Company, policy by request)

7 – ADVERTISING

7.1 - The advertising provisions specified in the FIA - Code must be respected. A copy of these provisions is available from the Organizer, if required. All Advertising stickers, start numbers and Rally plates provided by the Organizer are mandatory and must be placed before the scrutineering at parts of the vehicle indicated by the Organizer.

7.2 - Improper or incomplete display of advertisements on the car shall be treated as participation without advertisements of the Organizer. The Organizer's mandatory advertising is as follows: competition numbers, rally signs, advertising stickers,

WINTERRALLYE – STEIERMARK

8 – GENERAL OBLIGATIONS

8.1 - Crews

Only crews specified on the entry form are admitted to the start. A crew consists of one driver and one codriver. If one member retires or if an additional party is admitted on board, the car may be excluded from the Competition.

8.2 - Starting Order - Plates – Numbers

8.2.1 - The start will be given in the order of ascending starting numbers – minute by minute

Any crew arriving late at the start of the competition or of a leg or of a section (restart after a regrouping) may be penalised by the stewards, at their discretion.

8.2.2 - The organiser shall supply each crew with 2 Rally plates

8.2.3 - The rally plates and the car's Competition number, must be fixed to the car according to instructions in a visible position for the duration of the Rally. They must under no circumstances, cover the car's licence plates, even partially. If used, competition numbers provided by the Organiser must appear on both sides of the car throughout the whole Rally.

If it is ascertained at any time during the Competition that any Competition number, if used, or Rally plate is missing, a time penalty may be imposed.

8.3 - Time Card

8.3.1 - Each crew is given a time card showing the times allowed to cover the distance between the time controls. This card is handed in at the place designated by the organiser and replaced by a new one on the start of the next day.

Time cards must be handled as instructed by the organiser – they must be filled out by the competitor by themselves in respect of the COVID-19 restrictions. Competitors not handling time cards as instructed are liable for penalties.

8.3.2 - The regularity and target-time test sheets, if any, are an integral part of the time card.

8.4 - Traffic laws – Repairs

8.4.1 - Throughout the entire competition, the crews must strictly observe the traffic laws of the countries covered. Any crew which does not comply with these traffic laws is subject to penalties at the discretion of the stewards, as follows:

- 1st infringement: 200 points of penalty.
- 2nd infringement: 500 points
- 3rd infringement - possible disqualification.

Exceeding the maximum speed permitted by the traffic laws on two (2) occasions at any time during the Competition including during the regularity test section shall result in disqualification. In the case of an infringement of the traffic laws committed by a crew participating in the Competition, the police or officials noting the infringement must inform the offender thereof in the same way as for normal road users.

When the regularity tests sections utilize closed roads where the legal speed limit does not apply, then the speed limit will be defined by the organisers and will be treated, for penalty purposes, in the same manner as the legal speed limit.

8.4.2 - Repairs and refuelling are permitted on the whole course. Service may be authorised only in allowed areas.

8.4.3 - Crews are forbidden under pain of penalty which may go as far as disqualification:

- to block deliberately the passage of competing cars, or to prevent them from overtaking,
- to behave in an unsportsmanlike manner.

9 - RUNNING OF THE COMPETITION

9.1 - Start

9.1.1 - The starting interval between the cars is 1 minute. The start is given in accordance with the Programme.

9.1.2 - Crews must have their passage checked at all points mentioned on their time card in the correct order, under pain of a penalty.

9.2 - Controls - General Provisions

9.2.1 - All control points (TC / PC) are recorded with GPS and must be passed at a speed of minimum 30 km/h to run over in "flying mode" except manned control points where crews must stop!

9.2.2 - All controls, i.e. passage and time controls, start and the end of regularity or target-time tests, are indicated by means of FIA approved standardised signs (see also Appendix 1) - or with landmarks described in the roadbook and in the timecard.

The finish line and any intermediate time checks on the regularity test sections are not usually indicated.

Also the starting line of regularity-zones can be secret (window-open). A sign "end of control area" may be set up by the organiser at a maximum distance of 1km after the timekeeping at the finish line. This indicates to the crews that they have passed the last time control of the regularity test section. This sign can be displayed also in the roadbook.

9.2.3 – The route to a time or passage control from another direction than specified, or the skipping of a check, or passing outside the specified control opening times entails a penalty.

If these are passed too early or late, the control is considered to be exuberant.

Controls are usually opened 10 minutes before the ideal time of the start number 1, and 30 minutes after the ideal time of the last vehicle.

If the "control opening times" deviate, these will be announced in a separate instruction.

9.2.4 - Crews are obliged to follow the instructions of the marshal in charge of any control post.

9.2.5 - The distinguishing signs of the officials and marshals are as follows: red or blue vest with the label WRS

9.3 - Passage (PC) and Time Controls (TC) – Withdrawal

9.3.1 - Passage Controls

At these controls, the marshals simply stamps and/or signs the time card as soon as this is handed in by the crew, without mentioning the time of passage.

The lack of such a stamp and/or signature at a passage control entails a penalty.

The organiser may establish passage controls at any point on the route, and may check them by using the TRIPY/GPS-system.

9.3.2 - Time Controls

Time-controls (TC) are measured by the full minute.

At these controls, the post marshal enters the time at which one of the crew members hands the time card to the post marshal. The check-in time is the time obtained by adding the time allowed to complete the road section to the time of leaving the time control of the previous section. All TC can only be passed without penalty during their allowed opening times. These opening times are an integral part of the timecards.

WINTERRALLYE – STEIERMARK

The sometimes practiced “pre-entrance” in a TC in one minute before will be penalized for an “early arrival”.

Any difference between the actual check-in time and the target check-in time is penalised as follows in a TC:

- For late arrival: 10 points / minute
- For early arrival: 10 points / minute
- Maximum permitted delay with regard to target time between two time controls: 30 minutes = 300 points.
- No entry made at a time control, or reporting outside the maximum permitted delay of 30 minutes:
- at the first appearance: 2000 points.
- at the second appearance : disqualification - DQ
- after a DQ the competitor can go on as a guest and finish for the separate Regularity Test classification.

Time controls can also be made using the GPS- system. The place of a TC is clearly marked in the roadbook and/or a red panel may be attached there from the preway vehicle.

In the absence of a commissioner at a (unmanned) TC the participant must enter the times on the timecard correctly by the itself at this checkpoint - readable and clearly written.

In the event of the TRIPY/GPS- system, the captured time is the time of the arrival of the participant at the virtual control panel (red panel), it is about 100 meters behind the zone entry panel (yellow panel).

It is therefore strictly forbidden to the participants under punishment to go into the zone (behind the yellow table) before the minute of the timing begins. The distance of 50 meters between the virtual yellow and the virtual red table must be strictly observed.

Example of a minute-precision time control (TC):

Ideal time: 10:33 o'clock;

- You may pass the yellow zone panel only from 10:33 '00 "

If the time control is carried out by a local commissioner:

- You must submit your control booklet before 10 h 33 '59 ";

When the TC is performed with the TRIPY/GPS- system:

- You must pass the red chalkboard (actual timekeeping point 100 m behind the yellow panel) between 10 h 33 '00` and 10 h 33 '59 ``with a minimum speed of 30 km/h !

To avoid any imprecise entrance by possible GPS-failure in the TC it is recommended to pass that timekeeping point earliest 5 seconds after the full minute and at least min. 5 seconds before the next full minute.

So You can be sure to be timed by GPS in the correct time !

Delayed vehicles can immediately pass into the timecontrol without overtaking and/or hindering a vehicle already in the control zone. There can also be more than one vehicles within the same minute.

9.3.3. Intermediate Time Controls

These may be set up at the discretion of the rally organizers within a stage between two time controls as an additional time allowance. Times are recorded to the nearest minute or second, and the procedure is precisely described in the rally instructions.

9.3.4 – Withdrawals - Catching up

Provision shall be made for a crew who, for technical reasons, has missed during a leg a time control or a passage control (which can be secret) to be re-admitted to the following leg (day) and given a penalty of 2000 points.

In order to be classified, the car must report to the time control at least within 30 minutes with running engine and without external help.

9.4 - Regrouping Controls

9.4.1 - Regrouping Controls may be set up along the route. On their arrival at these regrouping controls, the crews hand the post marshal their time card. They receive instructions as to their restart time.

The purpose of these regroupings is to reduce the intervals which may occur between crews. Thus, the start time from the regrouping control, not its duration, must be taken into account.

9.5 - Test Sections

9.5.1 - Regularity Test Stages

They are held on roads open to the public traffic. They must be covered at an average speed, imposed by the Organizers, The (maximum) average speed for the stages is 50 km/h.

Exceeding the imposed average speed in a “Regularity-Test” -Stage calculated between the start and any point of time keeping by more than 20 % will entail a penalty of 3000 points and in case of repeat offense after notification of the 1st infringement the crew will be excluded from the race.

TIME KEEPING

In every stage the Organizer can plan intermediate time keeping points, at his discretion and in any place of the Regularity Test. There must be a minimum of one secret time check on each Regularity Stage section.

Nevertheless no time check will be done during the first kilometer of the stage, as well as in villages, from the traffic sign “village entry” until minimum one (1.00) kilometre distance after the “end of village” traffic sign and also one kilometer after a traffic sign of the end of a speed limit.

- The Regularity Stages will have to be accomplished without stopping or slowing down in an excessive way, under risk of penalties which can go as far as exclusion from the race.

- The time keeping by GPS will be done to the second. Every second below or above the ideal time at this point (based on the distance from the start and the imposed average speed) will entail 1 penalty point with a maximum of 2000 points. The total amount of the time keeping penalty points will be limited to 2000 points for each regularity stage.

The crews must complete the regularity test sections at one or more average speed(s) fixed by the Organisers, with the approval of the ASN. These average speeds imposed by the organiser may vary for the different classes. The minimum length of a regularity test section on public roads is 3km.

9.5.2 - Target Time Test Stages

The number of target time tests is specified by the organiser. The target time is set by the Organiser. A time is set for each waypoint. The waypoints are clearly visible as landmarks or traffic signs and are indicated in the roadbook. For the time below or above the target time on each waypoint, a penalty is imposed by 1 point / second.

The target times for all waypoints are based on different average speeds with a maximum of 50 km/h.

9.5.3 - STARTING PROCEDURE: (Monte Carlo Style)

There won't be any time control at each start of a Regularity or Target-time stage section.

- Consequently, you are free to start when you want to start into the Test stage section. When arriving at the start point, the start will be done with the cars order's arrival, independently of your competition number or classification.

- It will not be necessary to show your time card to the marshals and also no document will be given to you by the marshals.

- In the 100 to 200 meters area before the start, overtaking is not recommended. The beginning of this area is indicated by a yellow sign.

WINTERRALLYE – STEIERMARK

A - The start will be given as a “standing start”

(manned or unmanned)

- at the red panel line on the full minute as counted down by the marshals or (unmanned) the TRIPY-GPS-clock placed in the car or on the line.

- Jumped start: the crossing of the line before the signal of the marshals or before the clock counts down will entail a penalty of 100 points.

- Start delayed: crossing the line more than 10 seconds after the signal of the marshals or the clock counts down will entail a penalty of 100 points.

B - The start will be given as a “self – start - flying”

- at the red panel-line only in the full minute – similar as counted down by the marshals or the clock placed on the line and in flying mode. The start-time is taken at the red panel-line exactly in the second of passing the line in a minimum speed of 20 km/h

C – The start will be given as a “window-open” start

- this means that You have to keep a given average speed constantly from the point “window-open” until the point “window-closed”. The start and finish of a “window-open-zone” is indicated in the roadbook. The start-time is taken at a secret point as all other intermediate time-keeping points.

The intermediate time-keeping points in regularity-tests are secret. The time keeping points in a target-time-tests are indicated. Also the end of a test section is indicated in the roadbook or known by the specified route length.

9.5.4 - Test Section not finished.

For each Regularity-Test, Window-open Test or Target-Time-Test section not started or completed the competitor concerned will receive a maximum of 2000 points penalty.

9.5.5 - Stop for Timekeepers or the Stewards At the end of a sector or at any Passage control a “STOP point” of the Organizer can be indicated by a red panel. The competitors will have to stop there.

At this point the marshals may control the GPS device or the safety equipment of the car.

9.5.6 - Tripmaster Calibration

A calibration zone is made near the Start Area. Its description is available on week before the start on the website www.winterrallye.at

The calibration zone is measured with the system CRISARTECH on the propshaft of LANDROVER Discovery

9.5.7 - Parc Fermé

While the vehicles are subject to «Parc Fermé» rules, any intervention on the car (repair, servicing, refuelling etc.) is forbidden except for safety reasons.

The «Parc Fermé» rules apply in the parking area in Leoben on Friday after scrutineering to the start and on Saturday from 00.00 to 06.00 o'clock.

10 - ADMINISTRATIVE CHECKING AND SCRUTINEERING – PENALTIES - GPS-DEVICE

10.1 - Scrutineering before the Start

10.1.1 - Any crew taking part in the competition must arrive at administrative checking and at scrutineering in accordance with the detailed timetable given in the entry confirmation.

The following papers must be presented at the administrative checking:

- driving licence,
- car documents as required by the national laws of the country where the car originates,
- insurance for the car by declaration or by “green-card” for foreign competitors.

To make the entry procedure easy for the competitors the Organiser gives them a sheet of 1 document – which must be presented at the administrative scrutineering to declare >>

The driver/crew “selfdeclaration” to confirm that they are in possession of the valid documents for themselves and for the car.

10.1.2 - The scrutineering carried out before the start is of a completely general nature (checking of make and model of the car, year of construction, conformity of the car with the National Highway Code, etc.).

The relevant Identity Form must be presented for each car at scrutineering.

The Competition numbers, if used and provided, and the Rally plates (made available by the organiser) will also be checked.

10.2 - GPS-Device - Installation

Upon arrival in Leoben the cars must have the GPS-device connection and present it before the entry in the rally-park.

At the scrutineering of the car the competitors will receive a GPS Control and timing device. Its installation will be under the responsibility of the competitors. This material consists of 2 elements (see details and assembly in Appendix IV)

- the GPS device itself,
- velcro-scratches on the windscreen.

Once the GPS System has been completely installed and tested, it must not be disconnected or removed from the car until the arrival of the final leg at the risk of a penalty of 2000 points.

At the finish of the Rally, the crews must return the GPS-device to the Organiser or the Timekeepers.

The competitor remains fully responsible for all time keeping material entrusted to him (GPS box - power supply-etc.) – see appendix GPS for the installation in the cockpit.

This material may be controlled at any time along the itinerary by the Organizers, in particular at the beginning and at the end of every regularity stage. Any action to prevent its perfect functioning can entail the exclusion of the race.

10.3 - Final Control

At the finish of the Rally, the crews must make their cars available for a brief check by the scrutineers.

10.4 - Summary of Penalties

See Appendix V

11 - CLASSIFICATION - PRIZES - PROTESTS

11.1 - Classification

The classification method will be as follows :

All Penalties are expressed in points. The final results are determined by adding up the penalties of all TC, PC, Speed-controls, Regularity- and Target-time Test Sections and other penalties given by the stewards.

The crew with the fewest total points will be proclaimed the overall winner.

The next lowest will be second - and so on. The class results are determined on the same basis. In the case of equality the better result of the 1st Regularity-Test-Section is used as second valuation factor.

The provisional classification will be published on Saturday, 21st January 2023 at the Rally Office at 7.30 pm. The final official classification will be published at 8.00 pm.

WINTERRALLYE – STEIERMARK

11.2 - Prizes – Cups

11.2.1 - General Classification

Place 1 – 5 for driver and co-driver

11.2.2 – Classification – Category A, B, C

Place 1 - for driver and co-driver

11.2.3 – Classification – Classes 1,2,3,4,5

Place 1 - for driver and co-driver

11.2.4 – “Ladies CUP” - Classification

The best female crew or a single woman in the overall classification wins the Ladies' Cup.

11.2.5 – Team Classification

Place 1 – for the best 3 Crews of driver and co-driver in a named team

The Organiser reserves the right to award further prizes.

Leoben, 15.12.2025

11.3 - Prize-Giving

The place and time of prize-giving is shown in the Programme.

11.4 - Protests

11.4.1 - All protests must be lodged in accordance with the Code. Any protest must be lodged by one single crew and may only be lodged against one single crew or against the organiser.

11.4.2 - The decisions by the stewards are final.

11.4.3 - the protest fee is 500,-- Euro and will be refunded if the protest is justified and accepted.

11.4.4 - Protests against the timekeeping are not accepted.

Appendix I : FIA – Control Signs

Time control

Passage control

End of control

Test start

End of Test

Control-Signs in the Roadbook

<u>1 - Red point</u>	<u>Time Control (TC)</u>
<u>2 - Yellow point</u>	<u>Passage Control</u>
<u>3 - Green point</u>	<u>Start Regularity Test Section</u>
<u>4 - Blue point</u>	<u>Start Target-Time Test Section</u>
<u>5 - White point</u>	<u>Finish Test Section</u>
<u>6 - Orange point</u>	<u>possible common Danger, Radar, Sign for children etc.</u>
<u>7 - Pink point</u>	<u>Fuel Station</u>

Appendix II : Terminology, Explanation of the terms, names and abbreviations:

Crew	- Participants, driver and co-driver, crew
Vehicle	- Car entered for competition
Registration	- Entry to the competition
Participation fee	- Entry Fee for the competition
Cancellation	- cancellation by the participants
Sector	- 3 per day - a section of track with several stages and a break at the end
Stage	- distance between 2 time controls
Neutralization	- part of the track without time scoring
Parc Ferme	- closed zone with the ban on working on the vehicle - control zone
Time card	- card for entry of checkpoints by marshal or self-entry if ordered by Organiser
Bulletin	- A publication by Rally Organiser for the attention/direction of participants
FIA boards	- identification of (manned) control areas with the well-known FIA signs
<u>(Virtual) FIA-board as / or instead the FIA sign</u>	- intended facility on the route as <u>a replacement</u> for the usual yellow / red FIA signs these signs in clearly visible places with GPS measurement on unmanned controls e.g. - traffic signs, village-name signs, road markings

OA	- beginning of town, official traffic-sign at the beginning of a village/town
OE	- end of town, official traffic-sign at the end of a village/town
VZ	- Official Traffic Sign of Austrian Highway Code - StVO
HS	- Information Sign – Sign to be observed – f.i. „Achtung Kinder / Hofdurchfahrt, Richtungspfeil“ etc.
ZK/TC	- Time control, control with minute-exact time entry of the actual time at the time of passing
