

## Welcome to the Anniversary! / The 20th Styrian Winter Rally

For this anniversary edition in Leoben – our regular venue since 2011 – is preparing a very special classic car festival on the second weekend of January 2027.

This anniversary event, from January 14th to 16th, 2027, with a route of approximately 750 km and 20 special stages (over more than 250 km), represents one of the most interesting and challenging winter rallies in Europe. As it has been since 2023, it is also the first round of the Austrian National Championship in the ÖMVV classic car calendar for the following winter!

\*\*\*\*\*

Since its inception in 2008, the Styrian Winter Rally has thrilled numerous participants from Austria and many other European countries in the "green heart of Austria" and has also become a firm favorite with the many local spectators.

\*\*\*\*\*

"Rally driving like in the old days" and, above all, reaching the finish line is the goal with which participants, some driving vehicles over 60 years old, attempt to master the challenges of driving on Styria's historic rally trails in winter. The fun and enjoyment with like-minded enthusiasts and the warm Styrian hospitality are, of course, importance – and will remain so!
