SERVICE PARK

On the road section to the SS, a special traffic arrangement will be in place, as the road will be divided into three (3) lanes. Driving toward the SS will take place in the far-left lane, driving from the SS to the service area will take place in the center lane, and the far-right lane will be reserved for shuttle transport and a pedestrian path for spectators.

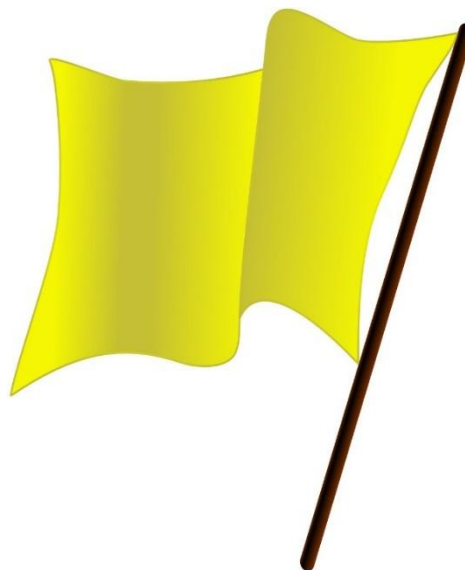

ROAD SECTION

On the road section to the SS, a special traffic arrangement will be in place, as the road will be divided into three (3) lanes. Driving toward the SS will take place in the far-left lane, driving from the SS to the service area will take place in the center lane, and the far-right lane will be reserved for shuttle transport and a pedestrian path for spectators.

The speed on the road section is limited to **20 km/h**, as there will be a footpath for spectators along the road. The base on the road section is concrete, i.e. it slippery.

Crews must be in the pre-start area **5 minutes** before their start time.

Respect the flag signals

SERIOUS DANGER
Reduce your speed.
Be prepared to stop.

SHAKEDOWN

The shakedown will take place on Saturday 17th of January 2026 **between 09:30 and 13:30**.

The length of the Shakedown is **3.51 km**, entirely on gravel. Start interval between cars on shakedown is **30 seconds**. Only **one lap** is driven.

In the pre-start area, a marshal will be present to hold the vehicles in order to prevent a queue from forming at the actual start. Since VIP rides will also take place within the Shakedown, a special starting procedure will be implemented. This means that when a vehicle with a VIP guest arrives in the pre-start area, these vehicles will be given priority for starting the run.

After completing the shakedown, the competitors must return to the tent and then proceed again to the start of the shakedown.

There will be no start list for the Shakedown.

SPECIAL STAGE

The special stage will take place without time controls, before the special stage there will be a pre-start area in which the competitors must be **5 minutes** before their start on a special stage .

The start of the special stage will be on gravel, so stones can fly from under the wheels when the cars start on a special stage, the competitors should keep the marked distance while waiting for their start.

After the flying finish, a chicane will be set up to reduce speed!

After passing the flying finish, an immediate reduction of speed is required. Behind the finish, an information board displaying the stage results will also be placed. Roadbook, page 10, box 45.
