Red Signals (Flags)

Red Signal (flag) procedure NCR 13.2.4.17 will be utilised on all special stages.

On any Special Stage where extreme circumstances make it necessary to neutralise the Competition e.g. where spectator safety is compromised or to authorise the movement of non-competing or Rescue Vehicles the system of Red Signals (Flags) must be in place.

These should be located at mid Stage Rescue points all locations where a Rescue / emergency Vehicle may re-enter the Stage following a shortcut and at each mandatory Radio Point (App.12). Red Signals (Flags) will be displayed at all mandatory Radio Points preceding the incident only on the specific instruction of the Clerk of the Course or Stage Commander.

NCR 13.10.7.31 On passing a Red Signal (Flag) displayed by a Marshal wearing a Marshals' tabard the crew **MUST immediately and significantly reduce speed** as well as being **prepared to stop** at any time.

NCR 13.10.7.32 At no time must a competitor overtake any safety vehicle encountered on the Special Stage route. The crew must then follow the instructions of any Marshals and / or stage safety personnel and maintain a reduced non-competitive speed until leaving the Special Stage. **Failure to comply with this rule may result in Disqualification following a Judicial Hearing and reported to the ASN in accordance with but pursuant to the Judicial procedures provided by NCR Chapter 2.**

NCR 13.2.4.20 Competitors who have been shown a Red Signal (Flag) will be given a notional time for the Stage.

Accident & Safety Procedure

NCR 13.10.7.10. Competitors must carry an A4-size white board with a red SOS on one side and black OK on the other (letters to be a minimum of 12cm high with a minimum stroke width of 1.5cm) with means to secure the board on display for oncoming Competitors.

NCR 13.10.7.11. In the case of an incident where urgent medical attention is required the red SOS sign must be displayed as quickly as possible to alert following Vehicles and aid any aircraft attempting to assist. Where present the crew must operate the SOS function on the Tracking Console.

NCR 13.10.7.12. Any crew that sees a red SOS sign displayed on a Vehicle or sees a major accident where both crew members are inside the Vehicle but not displaying the SOS sign must immediately and without exception stop to give assistance. Where present the crew must operate the SOS function on the Tracking Console in their own Vehicle and that of the crashed Vehicle where accessible.

NCR 13.10.7.13. All following Vehicles must also stop and the second Vehicle arriving at the scene must inform the next radio point.

NCR 13.10.7.14. Subsequent Vehicles must leave a clear route for emergency vehicles.

NCR 13.10.7.15. The Clerk of the Course may award a discretionary time to any competitor delayed in such circumstances.

NCR 13.10.7.16. **Any crew which is able to but fails to comply with Arts.7.11–7.15 above may be Disqualified following a Judicial Hearing and reported to the ASN in accordance with but pursuant to the Judicial procedures provided by Chapter 2.**

NCR 13.10.7.17. In the case of an incident where medical intervention is not required the OK sign must be clearly shown to following Vehicles and to any aircraft attempting to assist. If the crew leave the vehicle the OK sign must be left clearly visible to other competitors. Where present the crew must operate the OK function button on the Tracking Console.

NCR 13.10.7.18. The Emergency Red Warning Triangle must be placed at least 100m down the stage appropriate to the approaching speed of following Competitors to provide a visible advanced warning.

NCR 13.10.7.19. **Any crew failing to comply with Art.7.17 above may be Disqualified following a Judicial Hearing and reported to the ASN in accordance with but pursuant to the Judicial procedures provided by Chapter 2.**

NCR 13.10.7.20. Competitors who misuse the SOS or OK signs will be penalised in accordance with but pursuant to the Judicial procedures provided by Chapter 2. and may be reported to the ASN for further action. 7.21. Where a Tracking System is being used, a competitor encountering a hazard other than described in Art. 7.12 above must operate the Hazard function on the Tracking Console and await further instructions from Officials.

NCR 13.10.7.22. Competitors who misuse the Hazard function may be Disqualified following a Judicial Hearing pursuant to Chapter 2. and reported to the ASN for further action.

NCR 13.10.7.23. A 'hazard' is defined as any situation or incident on a Special Stage which is considered to be creating a safety issue that affects the safe passage of competitors through that Stage.

If you stop on a stage and cannot reach or be seen by a radio marshal then, if possible, please phone 07736 083745 to advise Rally Control.

Any crew retiring from the rally must report such retirement to the organisers as soon as possible, save in the case of force majeure, any crew failing to comply will be subject to a penalty at the discretion of the Clerk of the Course.

Competitor Safety Information

First Competitor on Scene

If the competitor is still in the vehicle and the vehicle is on fire GET THEM OUT IMMEDIATELY.

If the competitor is still in the vehicle, is responsive and there is no risk of fire:

- Approach from the front, look them in the eyes
- Do they seem aware of their surroundings?
- Speak to them, ask their name - do they respond?
- Any pain, loss of feeling - if yes keep them where they are!
- Keep them calm and keep them talking.
- DO NOT MOVE THEM UNTIL PROFESSIONAL HELP ARRIVES.
- Do nothing else

If the competitor is still in the vehicle, is unresponsive and there is no risk of fire:

- Stop any life-threatening bleeding by applying direct pressure / plugging the wound
- Ensure an open airway
- Immobilise the head and c-spine (neck)
- Check if they are breathing
- Treat any non-life-threatening bleeding

DO NOT REMOVE THEIR HELMET UNLESS THERE IS NO OTHER WAY TO ENSURE AN OPEN AIRWAY.

If the competitor is out of the vehicle:

- Do not grab hold of them - they might be unaware of what is happening and become combative.
- Guide them to a place of safety away from the incident and other competitors.
- Speak to them, ask if they are OK?
- Keep someone with them.
- Once in a safe place, assess them for injuries:
- Are they aware of their surroundings?
- Any signs of injury / are they experiencing pain?
- DO NOT LET THEM WANDER AROUND, BUT KEEP THEM UNDER OBSERVATION

Afterwards please write a short report for the organisers and either hand it to the first control official that you reach or to the Competitor Relations Officer. This report should cover the facts as you know them and include times of the incident starting and when you left the scene; always include your own details so that the organisers can, if necessary, contact you.

Road Book

This Road Book contains the complete route information for the rally. Not all junctions have been included in this road book. Where there is no instruction given continue along the road on which you are travelling. Names and signposts were those displayed at the time of route survey and the organisers will not accept any liability for subsequent changes.

Driving Standards

Please observe ALL speed limits and drive with care between the stages. The event will be using forest roads as part of the road sections, road timing is relaxed enough so that you do not need to speed on these sections.

Management / Emergency Service

Management / Emergency Service Vehicles are NOT allowed on the event.

End of Leg Road Section

In a change to NCR 13.13.3.9.c, competitors will **NOT** be allowed to check-in in advance of their due time at MTC 2. The road section from the end of the final stage is very short and extra time has been given to allow the results systems to verify times.

Competitors arriving early will be allowed to wait immediately prior to the control area for their due time.

Wait before the Yellow Board.
