# 11 GPS SAFETY TRACKING SYSTEM

## 11.1 GPS SAFETY TRACKING SYSTEM

All competitors must make provision in their cars for the installation of the Safety Tracking System. All further details will be given together with the device. Competitor is responsible for installation of the device and fastening the sticker. Organiser's representatives will check proper installation of the device on Friday, October 07, 2022 starting from 17:00 in TC0. Competition cars not equipped with the GPS monitoring device will not be allowed to start. Any attempt to tamper with, to manipulate or to interfere with the tracking device fitted to the competition car or any device that hinders the tracking recording by external interference will be reported to the Stewards who may impose a penalty up to disqualification. The GPS-tracking-system must be returned correctly after TC14 or after retirement to the Administrative Checks at HQ.

## 11.2 PRINCIPLES ON SECURITY AND TRACKING

Security and tracking devices are connected to a monitoring centre that stores all data received. All data is also stored on the device itself. The device has a self-contained power supply that operates throughout the rally. The device has "SOS" and "OK" buttons. Each device has a unique serial number that is assigned to each crew. During the event the Rally HQ will monitor the location and speed of each crew.

## 11.3 "SOS" AND "OK" SIGNALLING PRINCIPLES

By pressing the "SOS" button a crew reports an accident and requests immediate assistance. Also „SOS“ sign has to be shown to following competing cars. In case of an accident or technical problems at a Special Stage, by pressing the "OK" button a crew informs of stopping for more than 30 seconds and that immediate assistance is not required (even if a crew is trying to continue the rally). Attention! In case of stopping at SS, the device automatically sends an "SOS" signal to the centre. If no assistance is required, the crew must press the "OK" button within 30 seconds to remove the "SOS" signal sent by the system. The crew's mobile phone must be switched on (or turned on within 60 seconds), so that the Race Control can reach the crew. Incorrect "SOS" and "OK" signal transmission will be penalised. **In the case of an accident where urgent medical attention is required, when possible, the red "SOS" sign should immediately be displayed to the following cars attempting to assist (General Prescriptions Art 53.3.1.)**

## 12 SHAKEDOWN

No shakedown stage will be held.
