Clerk of the Course Communication #3 – Road Conditions

The current state of the roads are snow covered but plowed, except for the first 2 miles of Stage 1/5 and the first and last 1.5 miles of stage 4/8. It is suggested that any teams with 2 wheel drive recce vehicles recce these stages in the afternoon to give others the chance to knock down the snow. Lowered vehicles and/or vehicles on summer or low tread depth tires may be barred from entering these stages during recce hours. A tow rope is recommended for all recce vehicles.
