### **Stage Teams**

The use of the RallySafe timing for the event will mean we do not require officials at the Flying Finish of stages. Time Controls, Start Lines and Stop Points will have officials as required.

# 11 On the Stages – Think about where you are

Please remember the following points when if you are out in the forest

- Please respect all areas we are working in, the environment, fauna, flora and heritage of the land is important to us all, leave as small a foot print as you can.
- Tracks may be marked with flagging tape or other markers; however, steel nails or screws must not be used to attach markers to trees, due to the danger caused to operators when trees are milled. Tracks should not be marked with permanent paint.
- There are several Apiary Sites in the area of the rally. Access to apiary sites must not be altered or impeded. If hives are present, vehicles should not disturb the hives or stop near the site to prevent the chance of bee stings. If this an issue to any Official please advise the Officials Co-Ordinator,
   Nathan Whittle on 0491 293 314 and we can advise if your location is near one of these sites
- Eagles displaying stress, breeding activity or disturbance such as being vocal (screeching), pothooking (aggressive swooping), or flushing from the nest should be reported to Rally Command.
- Bunting will be used at the spectator points to prevent spectators and vehicles from accessing areas beyond the shoulder of existing formed roads
- No trees or other vegetation are to be felled

# 12 Clean Up

Please remember when leaving your location-

- We know that we won't be having any fires in the forest, but if there happens to be some spontaneous combustion in your area remember to please fully extinguish ALL embers and clean up the area.
- Please take any and all rubbish with you. Please leave the area as you found it.
