VIA VERDE

How do I use Via Verde to pass through toll gates without stopping?

Affix the on-board unit to the windscreen of your vehicle

With **Via Verde** position the on-board unit correctly on the upper part of the inside of your windscreen to enable proper reading.

- **For motorcycles**, the on-board unit must be placed inside a pouch already provided upon registration.We recommend wearing the pouch on your left arm, above the elbow. Alternatively, you can wear it on your wrist or on the handlebars of your motorcycle.

Drive through the lanes marked with the Via Verde symbol

At toll gates with barriers, use the lanes marked with the Via Verde symbol. These are exclusive lanes for customers with Via Verde electronic transponder that allows them to continue without stopping.

Pass trouble-free through electronic toll gates

Pass through exclusively electronic toll gates
