DAILY BRIEFING – Stage 5

SS6: A mountain stage, with a route along the ridges and some sections through valleys. The surface is good, but tough.
A fast and twisty beginning of the special stage in the 'pikes peak' style that ends at ***km 4.66*** *with a* barely visible right-hand bend at the crest. **Take great care!**
Watch out for the gullies, which are clearly marked in the road book and on the itinerary.

KM 6.08 – Right hairpin on a crest, **not visible on approach**.

KM 54.68 – Blind crest facing a tree; a second tree is hidden behind it. Pass **to the right of both trees**, narrow passage.

GENERAL INFORMATION

DAILY BRIEFING – Stage 5

DO NOT CUT THROUGH CROPS. STAY ON THE TRACKS – MANY HAZARDS ARE INVISIBLE.

SS6: The stage takes place on rolling mountainous tracks that are very winding and fast, with many crests without visibility.

There are numerous corners along cliff edges, sometimes very narrow. Be careful — some bridges are very difficult to see, and it is essential to stay on the track.

Stay very focused during this final stage, which requires a lot of driving skill.

SS7: These final short kilometers will require precision to gain a few seconds if necessary for the final classification. Due to the rain over the last few days, the surface is slippery and muddy.
