

OLYMPUS RALLY
17-19 April 2026

DECISION 12

From: The Stewards Mark Williams & Rob Bohn
To: All Competitors, Event Officials, ARA Scoring

Date: 19 April 2026
Time: 18:30 PST

The Stewards, having received a report from the Chief Scorer Marni Nagy regarding an error in the published National results have considered the matter and determine the following:

Time: The report was received at 23:07 on 19 April 2026

Facts: During the post-event audit of competitor timecards and corresponding Time Control log sheets, it was determined that Car 103 Quintero/Luhtinen checked into time control TC17A two minutes early. The early check-in time was recorded on both the competitor's timecard and the official TC log sheet. However, the associated penalty was not applied in the compilation of the published results.

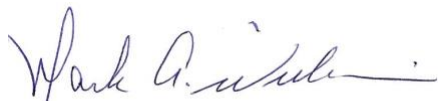

Rules: RCR 5.3.12 that penalizes any difference between the actual check-in time and the target check-in time at minute per minute of early arrival.
GCR 6.3.2 that authorizes the Stewards to instruct the Chief Scorer to amend the results of a competition to account for administrative errors.

Decision: The Stewards determine that a 2-minute early arrival penalty applicable to Car 103 was omitted from the published results. Accordingly, the Chief Scorer is hereby instructed to:

1. Apply a 2-minute time penalty to Car 103 for early arrival at the relevant time control.
2. Recalculate the overall times and classifications impacted by this correction.
3. Reissue the amended results as "Provisional Results (Revised)", clearly indicating that the revision is made by order of the Stewards following post-event review.

Rationale:

- The official records (timecard and TC log sheet) clearly establish that an early arrival occurred and that the corresponding penalty was not applied due to a scoring oversight. Applying the prescribed penalty ensures the results accurately reflect competitor performance in accordance with the rules and preserves competitive equity.

Mark A. Williams, Senior Steward

Rob Bohn, Event Steward
