Team Points Race seeding is based on the 1500 m . Athletes are grouped in groups of 8 for similar ability. Within each group, teams are made by joining seed $1 / 5$, seed $2 / 6$, seed $3 / 7$, seed $4 / 8$.

The first lap will be a neutral lap!
The final ranking for the event is a combination of each skater's points in the race. Teams that finish with no points will be ranked by combining the finish time of both skaters, with the lowest total time being ranked the highest.

If a skater is lapped by the lead skater, they must move to the outer part of the track and abandon the race immediately, and all points earned go to zero. A team's total points are still valid if only one skater finishes the race. If one team member is disqualified for not abandoning the race within one lap or a racing rule under ISU Rule 2574.5 then the Team will also be disqualified.

The start line is the 1000 m finish line. The finish line is the 500 m finish line.
