**Changes to the Supplementary Regulations****3. PROGRAMME**

Saturday, 2nd May		
09.00 – 14.00	Roadbook collection Administrative checks, distribution materials and documents *	Worldkarts, Europalaan 5, 8970 Poperinge

**10. ADMINISTRATIVE CHECKS**

Location: Worldkarts

Address: Europalaan 5, 8970 Poperinge

Roadbooks are available for collection from 9.00 am at the above address.

**11. SCRUTINEERING**

Participants may also borrow a fire extinguisher from the organiser against a deposit of 100 EUR (one hundred euros). The deposit will be refunded after the competition upon return of the borrowed fire extinguisher.

These can be obtained during scrutineering and must be returned to Rally HQ.

**12.4 GPS-tracking system**

Trackingsystemen met rode vlag functie, worden geplaatst in de wagens op zaterdag 2 mei, tijdens de technische controle.

**12.4 GPS Tracking System**

Tracking systems, with red flag option, will be installed in the cars on Saturday 2nd May, after scrutineering.

**12.4.1 Collection**

All cars must be equipped with the RallyTracer GPS tracking system provided by the organisation. The STS devices will be distributed during Administrative Checks. Each competitor is responsible for mounting the device in accordance with the supplied instructions. Competitors whose installation is

not functioning must report this to the organisation as soon as possible (Competitors' Liaison). Any damage, loss or theft remains the sole responsibility of the team.

12.4.1a Orders for mount & USB charger Orders for the RAM Mount and/or USB-A charger must be submitted no later than 1 May 2026 at 12:00 via [rallytracer.com/order/mbr-2026](https://rallytracer.com/order/mbr-2026).

#### **12.4.2 Installation**

The tracker must be mounted using a RAM Mount with a 1" ball (B-size), ensuring a firm and solid connection between the vehicle and the tracker. Vibration dampeners are permitted. The mounting must be robust enough to prevent the device from coming loose in the event of an accident, taking into account the extreme conditions of a rally (impacts, vibrations).

As the system detects impacts, the tracker must be secured to a fixed, non-moving and non-flexible part of the vehicle. Mounting on a moving or flexible part is not permitted. The tracker must be visible and accessible to both driver and co-driver without having to release the safety harnesses.

#### **12.4.3 Scrutineering**

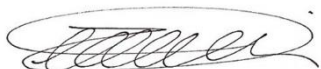

The correct installation and functioning of the system will be checked at Scrutineering by a designated official of the organisation. Vehicles whose system is not correctly installed or not operational will not be permitted to start.

#### **12.4.4 Return**

The team must return the STS device dismounted to the official at podium TC11A. In case of early retirement, the device can be returned to the Rally HQ (Ouderdomseweg 9A, Poperinge).

### **13. UITSLAG, PRIJZEN EN BEKERS**

The prize-giving ceremony for other participants will take place **at 8.00 pm at the Worldkarts, Europalaan 5, 8970 Poperinge**. Trophies will be awarded to the top three in each division (1-2/3, 4 and 5) and the winners of each class and the first lady.

Alain Penasse  
Koersdirecteur
