Dear Business,

RE: Upcoming Maroondah Aqueduct bridge closure on Eltham-Yarra Glen Road, Yarra Glen.

We are strengthening the Maroondah Aqueduct bridge on Eltham-Yarra Glen Road, just west of Yarra Glen. As much work as possible has been conducted under lane closures. However, the next stage of works requires a full closure of the bridge to replace the old bridge deck.

These works are needed to ensure approved heavy vehicles can continue using the bridge.

When to expect us

From **8pm Sunday 21 September to 10pm Sunday 5 October**, the bridge on Eltham-Yarra Glen Road between Mt Wise Road and Steels Creek Road will be closed.

We encourage drivers, including your suppliers and delivery drivers, to plan ahead for the 14-day closure.

What to expect

- Eltham-Yarra Glen Road will be closed at the Maroondah Aqueduct bridge for 14 continuous days. This includes the AFL Grand Final long weekend (26-28 September).
- A signed detour will be in place through Warrandyte and Lilydale.
 - Detour via Eltham-Yarra Glen Road, Kangaroo Ground-Warrandyte Road, Yarra Street, Ringwood-Warrandyte Road, Croydon Road, Wonga Road, Warranwood Road, Plymouth Road, Yarra Road, Maroondah Highway and the Melba Highway.
- An alternative detour is available through Kinglake and Dixons Creek using Heidelberg-Kinglake Road, Healesville-Kinglake Road and Melba Highway. There are restrictions for specific classes of heavy vehicles on these roads. Plan ahead using the National Network Maps.
- We'll be providing a temporary pedestrian crossing and shuttle bus service during the bridge closure. The shuttle bus service will run every day of the closure between the Maroondah Aqueduct bridge and the Yarra Glen township at regular intervals.

Please see the map on the back of this letter.

What's next

Once the bridge has reopened, final works including road resurfacing, barrier installation and signage works will be completed in October. There will be speed reductions in place and temporary single lane closures.
