

57. Mecsek Rallye

Pécs, 13th – 15th June 2024

Date:	12th June 2024	Time:	23:00
Subject:	Organiser's communication No. 1	Doc No.:	
From:	Organiser	Page number:	1
To:	All competitors	Attachment:	-

1. Anti-cut item details

The kerb protection / anti-cut items used on the special stages will be as per normal public road signage, a red and white diagonal obstacle detour sign will be placed in situ. These items HAVE NOT been detailed in the road book, however their location is marked by white painted arrow on the road surface. These items will be placed, especially those on public roads, in their position prior the operation of the special stages. It is important to note the purpose of these items; they are there to ensure the competition vehicles remain on the sealed road surface, they do not leave the tarmac, during cornering. Placement of these items will be in accordance with their purpose. Please ensure you process the stages during recce with this in mind.

2. Chicane construction

The chicanes are constructed from car tyres, which are bolted together. Any event that results in the tyres moving from their original position and require resetting will result in a penalty according to the rules. The chicanes are marked with a „!!! 100m” warning board, the chicanes themselves are constructed as per the road book.

3. Reconnaissance marking

The special stages are marked as following:

- Anti-cut items: white arrow
- Leg 1 special stage control points, chicanes: fluorescent orange
- Leg 2 special stage control points, chicanes: fluorescent green
- Test control points: white

4. Pécsvárad special stage

Following the shortened special stage the route will follow the original special stage's route, according to the public traffic rules!

Pécs, 12th June 2024.
