Road Book Contents (listed in order through the book)

- Sponsors Messages
- Speeding Penalties
- Key Contact Names and Telephone Numbers
- Accident Procedures / Yellow Flags
- Abbreviations used in Road Book
- Service Park Layout
- Itinerary / Schedule
- Stage Overview Map
- Route Instructions and Stage Maps (numbered pages)
- Forms:
 - Incident Report Form
 - Competitor Enquiry Form
 - Withdrawal Form

Speeding during Reconnaissance

The roads are not closed to the public during reconnaissance and crews do not have priority over other road users.

Forest workers and members of the public may be also using these roads and could be travelling in opposing directions.

Speed limits of 60km/h apply and will be enforced during reconnaissance.

Penalties for speeding on reconnaissance will be:

1st Offence:	up to 15 kmh above the speed limit	\$250
	over 15 kmh above the speed limit	\$500
2nd Offence:	up to 15 kmh above the speed limit	\$500
	over 15 kmh above the speed limit	30 seconds
3rd Offence:	Start Refused.	

Speeding during the Rally

Under the NATIONAL RALLY CODE ART 5.2(iii) (p) the following penalties will apply for speeding during the rally:

(1) For offences up to 30km/h above the relevant limit:

1st Offence:	\$200 fine
2nd Offence:	five minute penalty
3rd Offence:	exclusion

(2) For offences greater than 30km/h above the relevant speed limit:

1st Offence:	\$200 fine plus five minute penalty
2nd Offence:	exclusion

The number of offences means the number detected during the Event, irrespective of speed.

Accident Procedures / Yellow Flags

YELLOW FLAGS

If for any reason a Special Stage is stopped, SOS operators, who will be located at approx five (5) kilometre intervals or mid-point of the stage, will wave a yellow flag. These flags will be displayed to crews still on the stage after it has been stopped.

When the flag is displayed, each crew must slow to a non-competitive speed, exercise extreme caution and proceed to the end of the stage, or obey the instructions of the marshals.

ACCIDENTS/RED SOS

In the event of an accident where injuries are sustained that require immediate medical attention or where assistance is required with a fire the **RED SOS** sign should be displayed to the following car, which is required to stop.

The crew of this vehicle should assist and assess the requirements. Where mobile telephone coverage is available the first crew should ring the emergency number and advise of the situation.

If Rallysafe is fitted, the first crew should also press the emergency button on their unit to alert the command centre.

The second and third cars to arrive should proceed to the next SOS radio point to notify the Organisers of the situation. The third car should then proceed through the stage at a safe speed to provide a buddy to any other cars still on the stage. All other vehicles should then stay with the crew of the vehicle involved in the accident and continue to render assistance as required.

STOPPED VEHICLE/OK SIGN

If a car stops in a special stage as a result of mechanical failure or after an accident a warning triangle must be displayed in a conspicuous position at least 50 metres from the car in the direction that following vehicles will be coming from except where the car is not in a hazardous position.

Crews sighting a warning triangle must drive with caution and reduce speed until the stopped car has been passed.

If no immediate medical attention is required the OK sign must be clearly displayed to at least the three following cars.

The OK sign and the warning triangle must be left on display for the whole length of the period that the car is stopped on the course regardless of whether or not the crew remain with the car.

Failure to adhere to these regulations will be reported to the Stewards of the Meeting for consideration of exclusion or other penalty.
