**Innovation,
Not Renovation.**

Comfort Glaze converts your existing single-pane windows to double glazing without the mess, waste, and costs of traditional replacement. A proud Perth-born innovation, built to perform in WA conditions.

THE OLD WAY

Double Glazing Renovation

- ✗ High Disruption
Days of worksite debris, dust, open walls, and construction noise.
- ✗ Hidden Costs
Requires plastering, painting, and fixing damages caused by the window rip out.
- ✗ Massive Waste
Perfectly functional aluminium frames are ripped out and sent straight to landfill.

THE SMART WAY

Comfort Glaze Conversion

- 1-Hour Installation
Clean and precise technical install taking approximately one hour per window.
- Cost Effective
Significant savings on capital outlay with absolutely zero hidden finishing costs.
- Sustainable Process
We use your existing frames, upgrading the tech while minimising environmental impact.

**Tailored Solutions,
Not Generic Glass.**

The biggest misconception is that double glazing is one-size-fits-all. Our engineers have distinct solutions designed to solve your specific home requirements.

thermal

Prevents unwanted winter heat loss, minimises heat-gain during hot days.

solart

Engineered with high-performance low-E coatings to block heat summer heat.

whisper

Eliminates airborne, airborne noise and reduces noise levels in and around your home.

sanctuary

Eliminates unwanted glare and UV rays, protecting your furniture and interior surfaces.
