Please see attached layout plan of the Scrutiny Area.

#### SCRUTINY & IRDS / BRDS REQUIREMENTS:

It is the responsibility of all competitors, particularly overseas crews, to ensure that they are fully familiar with and comply with the scrutiny requirements applicable to Irish events.

Competitors must also ensure that they meet the relevant **IRDS / BRDS insurance requirements** and that they are included on the current **IRDS / BRDS database**, where applicable.

You are not insured until you have completed the above sign-on process.

#### RALLY TRACKING:

All competing cars are required to carry an approved **Rally Tracking System (RTS)**. The tracking device must remain correctly installed and operational for the duration of the event.

Tracking devices can be collected at **Mechanical Scrutiny-In** and **MUST** be fitted to the competing car before presenting for Mechanical Scrutineering.

Competitors are responsible for the safe keeping, proper use and return of the tracking device while it is in their possession. Failure to return the device, or its return in a damaged condition, may result in the competitor being invoiced for the **full replacement cost**.
