Start procedure on SS2 Circuit of Klatovy:

- At the start of this stage, a manual start procedure will be used. After handing back the time card to the crew, the timekeeper will count down aloud: 15", 10" and the last 5 seconds one by one. When the last five seconds have elapsed, the starting signal will be given whereupon the crews shall immediately start into the special stage.
- The actual starting time (hour, minute, second) recorded on the starting line by photocell will be entered on the Time Card at the SS Stop Point. For the start time as per Article 44.3.5 of the 2023 FIA WRC Sporting Regulations, only the hour and minutes shall be taken into consideration.
- All crews which have been allocated a start time interval of 3 minutes at the start of Section 2 will have at least an interval of 2.40 minutes between their start time and the start time of any other crew. All other crews will have at least an interval of 40 seconds between their start time and the start time of any other crew.

If the running of SS2 is interrupted, this will be signalled to the drivers by red flags. When given this signal, the driver must immediately reduce speed and leave the SS to the finish, even if the prescribed number of laps is not completed. Failure to comply with this rule will entail a penalty at the discretion of the Stewards.

12.10 OFFICIAL TIME USED DURING THE RALLY

Official time throughout the entire rally will be that of GPS (CET).

12.11 PERMITTED EARLY CHECK-IN

Crews are authorised to check-in early without time penalty at TC 0A, TC 2C, TC 8C, TC 14C, TC 18A and TC 18C.

12.12 CONTROL PROCEDURES AND TIMECARD HANDLING

Time control procedures will be as described in 2023 FIA WRC Sporting Regulations, Articles 43, 44, 46, 48, 49 and 55, ie. time cards are again physically handed over at time controls and stage starts. Any writing on the time cards can only be done by the rally officials, except filling in the car number and markings on the boxes reserved for competitor's use.

The time cards are given to the crews at the start of each Section. Shakedown time cards are given at the Shakedown TC.

12.13 TYRE FITTING ZONE

A Tyre Fitting Zone will be organized in Prachatice. The layout of the Zone will be included in RallyGuide 2. Bay allocation for the TFZ at Prachatice will be given in a CoC Communication.

Information on possible joint solutions for tyre logistics to the TFZ will be given later in a bulletin. In any case, each competitor may have one (1) small vehicle (estate/van) with the two (2) mechanics allowed to help the crew. The mechanics are also allowed to bring and fix extra lights at the TFZ.

A special vehicle pass will be given (one (1) per each competitor number). These tyre service vehicles may enter the area max. 15 minutes before the estimated arrival of their rally car and must leave immediately after the car has left TC 5D.

12.14 RUNNING OF FLEXI-SERVICE

12.14.1 RUNNING OF 31-MINUTE FLEXI-SERVICES

Contrary to the prescriptions of the 2023 FIA WRC Sporting Regulations, Article 57.2.2, the midday service on Saturday will be run as a flexi-service for P1 crews.

At TC 11A **all P1 crews** are shown their due time at 11C (Service OUT), all other crews are shown their due time at TC 11B (Regroup and Technical Zone OUT – Service IN). After having completed the checks at the Technical Zone, P1 crews will pass TC 11B without stopping and immediately drive their cars into their service bays where they are isolated by rope / tape installed by the team. Upon start of flexi servicing, the rope / tape is removed by the team and a rally official records the start time (HH:MM) on the timecard in the box provided for TC 11B and in an electronic record monitored by the FIA. Servicing cannot be interrupted and when it ends a rally official records the end time in the electronic record and the car is again isolated by rope / tape installed by the team, until it is driven to TC 11C by the crew. Any service in excess of the single, uninterrupted, 31' will be reported to the Stewards, who will apply time penalties even if the crew checks in at TC 11C on their due time.

All other crews shall leave their car in the Regroup/Flexi Parc Fermé area to be collected for service at their due time. At any time, the car may only be driven by the crew entered. Time entry shown at TC 11B mark the start of service.

12.14.2 RUNNING OF 48-MINUTE FLEXI-SERVICE

The flexi-service parc fermé at the end of Sections 2, 4 and 6 will include a 10-minute Technical Zone. The procedures described in the 2023 FIA WRC Sporting Regulations, Article 59 apply to all crews. The start times of servicing for P1 crews are recorded by a rally official and in an electronic record monitored by the FIA. Service end time is recorded at TC Parc fermé In.

12.15 RESTART AFTER RETIREMENT

- Cleaning of vehicle components: Several facilities (water containers and water connection) will be available in the service park nearby the service park headquarters from Monday, 24 October 2023. The use of high-pressure cleaners or water hoses for cleaning purposes is prohibited at all other locations in the area of the service park.
- A sufficiently large plastic ground sheet must be used under the competition car whenever service works are carried out on the car. The ground sheet must be sufficiently strong and tear-resistant, have no damages and be tight, i.e. impervious to oil, fuel, cooling and brake liquids as well as to battery acid. If several sheets are connected, this connection must be made of adhesive tape which is leak-tight, impervious and tear-resistant to the aforementioned substances or an overlap of the sheets of at least 50 cm must be ensured.
- **Any residues such as water, oil, fuel, any other liquids, dirt and similar must be collected from the ground sheets, the use of wet vacuum cleaners is recommended, and be disposed environmentally-friendly (e.g. into the containers at the high-pressure cleaners facilities provided by the organiser).**
- Competitors are required to ensure that no substances hazardous to water pass over the edge of the ground sheet and into the ground, even in the case of rain.
- The service crews must be in possession of oil absorbing materials and have available a container for used oil and brake fluid at any time during the event.
- Any pollution of the environment must be avoided. Any waste, wrapping material, spare parts, empty oil or colour tins, batteries, etc. must be collected and given to a waste disposal by the competitors themselves. Used oil must be collected and brought to the containers made available in the service park for this purpose.
- Containers with substances hazardous to water such as oil, fuel, cooling and brake liquids, chemical substances or cleaning agents must not contain more than 20 litres per unit. No more than 100 litres of the above substances may be stored inside a vehicle if no safety devices such as collecting tray are provided.
- **Any such empty containers must be disposed at the collection points for hazardous goods inside the service park and/or with P1 Racing fuels for fuel containing devices.**
- To enable a smooth operation of the rescue teams in case of an accident, all containers with liquid and non-liquid chemicals (e.g. cleaning agents) must carry labels which clearly identify their contents.

- Smoking is forbidden at a distance of less than 10m from containers with inflammable contents (e.g. fuel for generators), even if the containers have been emptied. A solid barrier must be provided between the storage area of any such containers and eventual spectator areas before, during and after their use.
- The ban to impair the environment, e.g. water, soil and biotope, is also regulated in the national environmental and criminal law.

Any infringement will be reported to the Stewards.

12.18.3 CASH DEPOSIT

12.18.6 DISMANTLING OF FACILITIES

Any dismantling of service area facilities before Sunday, 29 October, 08:30hrs, must be made at times when there is no rally traffic inside the service park (see Itinerary) unless any such dismantling is exclusively carried out within the periphery of the corresponding team area itself (without using any kind of traffic lanes or team external areas).

12.18.7 SPEED LIMIT AT DEKRA SERVICE PARK

The speed limit is 30 km/h.

12.19 CHICANES

Due to safety reasons, chicanes will be positioned on the rally route to reduce speed of rally cars. For the duration of reconnaissance, if possible, the chicanes will be positioned on the spots where they will stand also during the rally. Where positioning of chicanes for the duration of reconnaissance is not possible, the spots will be marked on the road.

Judges of Fact will monitor the correct passing of the chicanes. The list of Judges of Fact will be published on the Official Notice Board in compliance with the FIA International Sporting Code Articles 11.16.3 and 11.16.7.

APPENDIX 5 – DRIVERS’ SAFETY EQUIPMENT (2023 FIA INTERNATIONAL SPORTING CODE, APPENDIX L)

All competitors are reminded of Appendix L of the FIA International Sporting Code, in particular its Chapter III - Drivers’ Equipment. These regulations apply to the Shakedown as well.

Helmets (Appendix L, Chapter III, Art. 1)

Priority 1 drivers and their co-drivers must wear helmets according to the FIA Standard: 8860-2018 or 8860-2018-ABP. This also applies to all Priority 2 crews competing with a World Rally Car.

All other drivers and co-drivers must wear crash helmets homologated to one of the following FIA standards:

- 8858-2002 or 8858-2010 (Technical List N°41),
- 8859-2015 (Technical List N°49),
- 8860-2010 (Technical List N°33)
- 8860-2018 or 8860-2018-ABP (Technical List N°69)

Drivers and co-drivers who wear full-face helmets must contact the FIA Medical Delegate or the Chief Medical Officer in order to carry out a test before the start of the event. This test is described in Appendix L, Chapter III, Art. 1.3.

Frontal Head Restraint (FHR, Appendix L, Chapter III, Art. 3)

All crews must use FIA approved FHR systems homologated to FIA standard 8858. Approved FHRs, anchorages and tethers are listed in Technical List N° 29. See also helmet compatibility chart in Appendix L, Chapter III, Art. 3.3.

Flame-resistant clothing (Appendix L, Chapter III, Art. 2)

All drivers and co-drivers must wear overalls as well as gloves (optional for co-drivers), long underwear, a balaclava, socks and shoes homologated to the FIA 8856-2000 standard (Technical List N°27) or 8856-2018 (Technical List N° 74).

For Priority 1, 2 and 3 drivers and their co-drivers, the wearing of equipment homologated to the FIA 8856-2018 standard is obligatory. See also Art. 11.4 of these Supplementary Regulations.

Please pay special attention to the prescriptions of Art. 2 concerning embroidery and printing on flame-resistant clothing (manufacturer certificates etc.) **as well as concerning the correct wearing of the clothing elements! See also 2023 FIA WRC Sporting Regulations, Article 53.1.**

Biometric Devices (Appendix L, Chapter III, Art. 2.1)

Drivers may wear a device to collect biometric data during racing.

- If the biometric device is integrated into a protective garment homologated to FIA Standard 8856, the garment shall be homologated to FIA Standards 8856 and 8868-2018.
- If the biometric device is a stand-alone device, then the device must be homologated to FIA Standard 8868-2018 only. This device must be worn in addition to the garment homologated to FIA Standard 8856.

Wearing of jewellery (Appendix L, Chapter III, Art. 5)

The wearing of any type of jewellery, such as but not limited to, neck chains, bracelets or watches is prohibited during the competition. Exceptions to this rule, providing the CMO and/or Medical Delegate do not consider that due to size or location they may delay rescue or hinder emergency care, are:

- i. the wearing of watch(es) by co-drivers, on the condition that the watch(es) is worn over the overall,
