GENERAL DESCRIPTION

DSS-90: The landscape is volcanic, with less visible tracks. The terrain is technical and winding, and the overall pace is slow. Take care in the fesh and the dust.

90-T IN: The tracks become faster, with rapid off-piste sections and many crossings requiring demanding navigation.

T OUT-213: The tracks become even faster. There are numerous tracks and off-piste sections as tracks are not always visible.

213-240: Very fast tracks.

240-260: Technical tracks, slower pace.

260-CP1 : Fast track, then becomes more technical and slower. Sandy ground and off-piste as tracks disappear and reappear. Numerous track – navigation required. Sometimes stonier – technical riding sections.

CP1-ASS: The track becomes faster again, though the terrain remains stony.

VIGILANCE POINTS

- ***PK 53.23:*** Bad section over stones
- ***PK 201.01:*** Fesh and stones
- ***PK 213.02:*** Crossing of a large track, danger 2
