

# Malcolm Wilson Rally 2024

## Information

Issued 08.03.24 @ 16.30

### Road Conditions

SS1 Following logging operations there are sections of the Stage which are muddy & slippery (as the photos on the noticeboard & Sportity). The logging work starts prior to Junction 10 and continues to junction 11. And then from just prior to Junction 13 until Junction 15.

As the dry & windy weather continues it is drying out quickly.

SS2 Conditions are good in general with some slippery sections prior to Junction 2.

Signed

Kevin Savage

Clerk of the Course
