

**RALLY GUIDE**

## 1. Introduction and welcome

The **Rally da Auga** reaches its 10th edition with a new and important challenge that supposes a radical change of location that we face with the illusion that the great reception and support that the Councils, entities and above all companies and citizens are already giving us of the Region of Ordes.

This has forced us to start completely from scratch, with the work and the difficulties that this entails. All rally locations are completely new. From the timed sections -which continue to maintain the philosophy started in the Curtis Region and continued in the Arzúa Region- to the Service, Regrouping, Start and Parc Fermé, as well as the Headquarters and the scrutineering.

Although the town of Ordes will be the nerve center, the entire rally route will also be distributed through the municipalities of Cerceda, Frades, Mesía and Tordoia.

As a novelty, we have proposed to take the Spanish Gravel Rally Cup to the capital of the province, in such a way that the center of the city of A Coruña will be the place where spectators in general will be able to approach the vehicles and drivers in the front row, and where the starting signal will be given to all the participants, with what they mean of image and impulse for the event.

Thanks to the collaboration of the Councils of the Ordes Region, the Provincial Council of A Coruña, the Xeral Secretariat for Sports of the Xunta de Galicia and the Higher Sports Council through the Royal Spanish Automobile Federation, in addition to the contribution of the usual firms with some new addition, who give us their trust as partners, we can once again keep this project alive in times of economic difficulties.

Together with them, as always, the invaluable collaboration of the Civil Protection Services and the never sufficiently valued volunteers and officials, for whom we continue with the maxim of adding troops, joining the efforts of various automobile entities.

Our objective is to achieve a sporting and social event in which we all feel as comfortable as at home, but with the maximum security measures both at a sporting and socio-sanitary level.

Welcome to a renewed edition of the Galiciana Gravel Rally, the Rally da Auga 2023, and THANK YOU FOR YOUR ATTENDANCE.
