INTERCONTINENTAL GT CHALLENGE SPORTING REGULATIONS 2025

FOREWORD

The Intercontinental GT Challenge is governed by the FIA International Sporting Code and its appendices (hereinafter "the Code"), Appendix J to the Code, the International Series General Prescriptions and the present Sporting Regulations specific to the Challenge, as well as the latest regulations of each Competition which makes up the Challenge.

SRO Motorsports Group, the Promoter, will organise the Intercontinental GT Challenge (hereinafter "the Challenge") reserved for FIA-homologated Grand Touring cars.

The Challenge comprises one overall title for the Intercontinental GT Challenge Drivers, one overall title for the Intercontinental GT Challenge Manufacturers, one title for the Intercontinental GT Challenge Independent Cup, hereafter referred to as the 'Independent Cup', and one title for the Intercontinental GT Challenge Silver Challenge, hereafter referred to as the 'Silver Challenge'.

Certain aspects relating to the application of the Challenge regulations have been entrusted to the SRO Sporting Board and SRO Technical Board, as defined in Appendix 3.

REGULATIONS

1. The final text of these Sporting Regulations shall be the English version, which will be used should any dispute arise as to their interpretation. Headings in this document are for ease of reference only and do not form part of these Sporting Regulations.
2. These Sporting Regulations come into force on 17th January 2025 and replace all previous Sporting Regulations.

GENERAL UNDERTAKING

3. All drivers, competitors and officials participating in the Challenge undertake, on behalf of themselves, their employees and their agents, to observe all the provisions as supplemented or amended of the Code, the International Series General Prescriptions, the Technical Regulations (Article 257A of Appendix J to the Code), Bulletins and Clarifications from the SRO Technical and Sporting Board issued during the season, and the present Sporting Regulations and its appendices. Bulletins will be approved by the parent ASN, which is the RACB.

GENERAL CONDITIONS

4. It is the competitor's obligation to ensure that all persons concerned by his entry observe all the requirements of the Code, the Technical Regulations and the Sporting Regulations as well as Bulletins and Clarifications from the SRO Sporting and Technical Board issued during the season. If a competitor is unable to be present in person at any Event, he must nominate his representative in writing to the Stewards. A person having charge of an entered car during any part of an Event is responsible jointly and severally with the competitor for ensuring that the requirements are observed.

ELIGIBILITY

5. The Intercontinental GT Challenge is open to Manufacturers and their teams and drivers, as well as Bronze or Bronze* drivers and their team-mates, and Silver or Silver* drivers and their team-mates, competing in a number of major Endurance competitions during one calendar year. The competitions qualifying for the 2025 season are listed in Appendix 1. Any changes will be subject to the approval of the Sporting Board. All drivers, Competitors and Officials participating in the Challenge must hold current and valid licences. For drivers in cars nominated by a Manufacturer, the minimum requirement is a Grade ITC-C FIA International Driver's licence (plus any specific requirement imposed by the promotor, an organiser or a track).
6. Eligible cars are GT3 cars with an FIA homologation as defined by the applicable technical regulations (Article 257A of Appendix J to the Code), which are entered in multiple qualifying competitions in accordance with the specific Sporting and Technical Regulations applying to that competition. For cars in their first year of homologation, the model is not eligible for the Intercontinental GT Challenge unless it has taken part in the annual Balance of Performance test and one round of the GT World Challenge powered by AWS of a minimum duration of six hours.

To score points towards the 2025 Manufacturer title, the Manufacturer must have entered in the Intercontinental GT Challenge in accordance with articles 10 to 15 below.

7. Entering the Intercontinental GT Challenge renders that Manufacturer's FIA GT3 cars eligible for the Pro category of the GT World Challenge Europe Endurance Cup, including the CrowdStrike 24 Hours of Spa, on condition that at least one Pro car takes part in the Paul Ricard 6-hour race before the Spa event, except for situations of force majeure accepted as such by the SRO Sporting Board.

Should a Manufacturer enter the Intercontinental GT Challenge but fail to ensure there is at least one car of their brand entered in the Pro category at each round during the year, except for cases of force majeure recognised as such by the SRO Sporting Board, this will render the manufacturer ineligible for the Pro category of the CrowdStrike 24 Hours of Spa for the following year.

8. To be eligible to score points towards the 2025 Intercontinental GT Challenge Drivers title, drivers must hold an International licence issued by their ASN of a minimum grade ITC-C and to be driving a car whose Manufacturer has entered in the Intercontinental GT Challenge in accordance with articles 10 to 15 below.

Cars and drivers entered in the competition whose Manufacturer has not entered the Intercontinental GT Challenge, will not score points towards the Intercontinental GT Challenge titles and will be considered invisible for scoring purposes.

9. To be eligible to score points towards the 2025 Independent Cup or the Silver Challenge, drivers must hold an International licence issued by their ASN of a minimum grade ITC-C (plus any specific requirement imposed by the promotor, an organiser or a track) and must have entered the Independent Cup in accordance with articles 16 – 24.

All of the Manufacturer's FIA GT3 cars entered in each Competition will be eligible to score points independent of the category, class or cup in which they are entered.

The Manufacturer entry fee does not include the entry fees in the individual Competitions.

ATTRIBUTION OF POINTS FOR SHORTENED RACES

36. If a race is suspended and cannot be resumed, no points will be awarded to the crews if the leader has completed less than two laps. Half points will be awarded if the leader has completed two laps or more but less than 75% of the original race time and as long as the results include at least one lap which took place outside of a full course yellow or safety car procedure. Full points will be awarded if the leader has completed more than 75% of the original race time. The above-mentioned conditions will be based on the number of laps as shown on the published results as the basis for the final classification.
37. In the case that a race of twelve or twenty-four hours is red-flagged for more than half of the scheduled duration, for any reason, before resuming, half points will be awarded towards all titles. For the avoidance of doubt, the duration of multiple red flag periods during the same race would be added together for the purposes of this article.

CLASSIFICATION

38. Cars having completed less than 70% of the number of laps covered by the winner (rounded down to the nearest whole number of laps) will not be classified for the Intercontinental GT Challenge and will not score points towards the Manufacturers, Drivers or Independent Cup titles. Cars having completed more than 70% of the number of laps covered by the winner (rounded down to the nearest whole number of laps) will be classified for the Intercontinental GT Challenge and will score

points towards the Titles. This is independent of any alternate classification criteria given in the regulations for each individual event, up to and including no classification criteria.

PODIUMS

39. At each event, the drivers of the winning car entered in the Intercontinental GT Challenge must make themselves available for the Podium ceremony.
40. At each event, the top three drivers in the Independent Cup must make themselves available for the Podium ceremony. If fewer than three drivers are competing then only the winners will be called to the podium.

TYRES

41. If so allowed by the regulations of the Event in question, cars competing in the Intercontinental GT Challenge may carry over new tyres – stickered and therefore unused on track – between events within a single season. These tyres must have been registered at a previous round of the Intercontinental GT Challenge and can only be used according to the specific regulations of the Event (ie either in Paid Practice or in Free Practice).

PRIZE GIVING

DEAD HEAT

44. If two or more drivers or Manufacturers finish the season with the same number of points, the higher place in the Challenge shall be awarded to:
 - The holder of the greatest number of first places,
 - If the number of first places is the same, the holder of the greatest number of second places,
 - If the number of second places is the same, the holder of the greatest number of third places, and so on through the point-scoring positions until a winner emerges.
 - In the case of Manufacturers, the above criteria will be based firstly on the highest placed individual car, and in the event of a remaining tie then the second-best placed car and so on.
 - If this procedure fails to produce a result, the driver or Manufacturer (best placed individual car) who ranked best in the final race of the Intercontinental GT Challenge will be ranked the highest in the Intercontinental GT Challenge classification.
 - If this still fails to produce a result, the Promoter will decide on the higher place in the Challenge, in consultation with the Sporting Board.
 - Drivers of the same car, who have formed the same crew during all the competitions in the Intercontinental GT Challenge in which they have taken part and scored points, and who finish with the same number of points, will share the same place in the Intercontinental GT Challenge. Examples: drivers 1 and 2 of car A will be classified equal first in the general classification of the Intercontinental GT Challenge ; drivers 1 and 2 of car B will be classified equal second, and so on until the last classified crew finding itself in this situation.

- In case of any specific situations not covered by the points above, the SRO Sporting Board may be requested to decide on the points allocations. This might include cases where individual drivers may not have adhered to the minimum driving time due to force majeure.
