

Bulletin 3 - Rally Nyköping

Schedule changes. A completely new timetable can be found in a separate appendix. After ss7 there will be service at Skavsta instead of refueling in Vrena, this means that the transport will be 20.6 km longer before the 30 min service.

Follow the arrow after ss7 to road 52 where you can connect to the road book on page 47 floor 13. You will reach the road where it says to ss7.

14,24	0,44		19,98
		13	
20,15	5,91		14,07
		14	

Also that we added a tc in for Regrouping after ss14! Time for TC in is given at the stop line on ss14. No time point for premature entry into regrouping.

Changes in roadbook

From page 1 to ss1 make sure you look at the arrows as there is no stretch over a non-traveled route.
