

BRIEFING DRIVERS

The Organizing Committee of the Historic Rally Fafe welcomes all competitors and wishes everyone the greatest success in the event. It is with great pleasure that Fafe hosts, once again, the European Historic Rally Championship.

Some notes:

1. We kindly ask all competitors to comply with road regulations in order to ensure everyone's safety.
2. The Organization will use the Tracking System provided by ANUBE, named SPICA IV. The operating instructions are published in Sportity. Should any questions remain, we are entirely available to provide clarification.
3. The tow trucks operating under the organization's service will only remove vehicles from the stages to the most convenient point for the organization, always ensuring easy access for the teams, in order to guarantee the smooth running of the event.
4. We remind everyone that the Official Notice Board is the Sportity application, and that all competitors must be registered to receive notifications, if necessary, and to access all event information.
5. In case of an accident, please contact HQ immediately at +351 911 724 985 or reach out to the Competitors' Relations Officers.

We wish you all an excellent rally!
