Road Book preparation standard

- This Road Book has been prepared from Dec 2025 and corrected during Jan 2026.
- Organisers have paid special attention when preparing his Road Book in order to make its use and interpretation easy. For this reason, information considered as not useful or relevant has been omitted.
- The points of the itinerary affected by road works will be shown as “WORKS-OBRAS” in the drawing.
- Any important modifications which may occur after issuing the Road Book will be described in information bulletins. Organizers are not responsible for unexpected changes in the road signalling.
- Official road classification (E.N,EM) is an important information and it is always shown under the column “INFORMATION”.
- Only the crossroads considered useful for navigation as well as relevant information (road signs, road designation, town/village entrance, etc.) will be included. Following this standard, whenever you are driving on a road, you must continue on the same road until the Road Book indicates a change of road or direction.
- This Road Book has been carefully elaborated by the Organisers. However we would welcome any suggestions to improve it.
- Official road classification are:
 - E.N.** - National Road
 - E.M.** - Municipal Road
 - E.L.** - Connection Road
