3rd Briefing – Rally-Guide for the CLASSIC1OOO>>Rally on October 24th 2026

Schedule for Saturday:
On Saturday, the route is once again divided into 3 sectors:
The start will take place in the order of the results established following the prologue, beginning at 8:01 AM at the turbine wheel in Ybbs. The start list for Saturday is available on Sportity. You will receive your time cards and the special stage (SS) list from the event staff at the start.

Additionally, you will be provided with a "snack bag" in place of the refreshments originally planned for the morning in Sector 4c at the *Gasthof Großschönauer Hof* (hosted by Ms. Ertl).
Unfortunately, Ms. Ertl has fallen ill on short notice and is unable to host us.

Sector 4a: From Ybbs to Grein an der Donau
Between Ybbs and Grein, you will complete Special Stage 11 (SS-11), which is identical to the prologue stage. Please pay close attention to the speed limits!

Sector 4b: From Grein to Unterweissenbach
Shortly after Grein, you will complete Special Stage 12 (SS-12). Please exercise the necessary caution in sensitive areas and ensure you do not disturb local residents!

Sector 4c: From Unterweissenbach to Großschönau
This leg includes Special Stages 13 and 14 (SS-13 and SS-14). For SS-14, you will receive an average-speed table from the event staff at the start; you must follow this table from the start to the finish of SS-14.
Time Control 10 (TC 10) in Großschönau is located past the inn, just after the exit onto the B 119 road—please refer to the detail sheet on page 80A.
The 30-minute break mentioned on page 80A has been incorporated into the subsequent route for Sector 5c and is already added into the total driving time allowed to reach Time Control 11 (TC 11).

Sector 5a: from Großschönau to Heidenreichstein
Starting from Time Control (ZK) 10, the previously mentioned 30-minute break is already added into the total travel time. This is where the first "target-time" test begins - running from the entrance of the village of Großwolfgers to the entrance of the village of Gebharts. (See points A through H.)

Note the exact second you enter the target-time control point (ZZK-A) and drive from point A to point H, adhering precisely to the second-by-second requirements specified in the special stage (WP) list.

Sector 5b: from Heidenreichstein to Gilgenberg
Shortly after special stage 15 (WP-15), the second target-time test begins - running from the entrance of the village of Radschin to the entrance of the village of Gilgenberg.
Again, note the exact second of your entry and drive from point J to point T, following the requirements in the WP list with second-perfect accuracy.

Sector 6a: from Gilgenberg to Krumau am Kamp
A relaxed transit stage leading to special stage 16 (WP-16) in Kirchberg an der Wild, featuring several passage controls (PKs). Within WP-16, there are sections with fine gravel. The end of the special stage is located before the entrance to the village of Dietmannsdorf, in front of a large farmstead (note the 30 km/h speed limit here); this is also indicated in the roadbook.

Sector 6b: from Krumau am Kamp to Krems
Shortly after Krumau, a (delayed) 50-minute lunch break at Hotel Ottenstein is added into the travel time leading up to Time Control 15 (ZK 15).
Please park your vehicle in the large parking lot or on the meadow to the left, then walk a short distance to the restaurant. A hearty snack/meal will be provided there - please note that you must pay for your food using only the BLUE token!

Time Control 15 (ZK 15) is located at the exit of the parking area at the entrance sign to the town of Peygarten-Ottenstein; it is a "flying" time control (ZK-OUT), meaning you pass through it without stopping. Further along the route, you will encounter Special Stages 17 and 18 (WP-17 and WP-18). Time Control 16 (ZK 16) is situated in Krems, at the exit of the gas station along the banks of the Danube.

Sector 6c: Krems to Ybbs

From here, you begin the final leg toward Ybbs, featuring the last two Special Stages (WP-19 and WP-20) - taking you first through the Wachau region and then over the "Seiberer," one of the historic special stages from rallies of the past. Upon reaching the finish line in Ybbs, in front of the town hall, a well-earned FREE BEER awaits all those who bravely mastered this demanding classic car rally - served on the riverside terrace of the Hotel Donau-Lodge!

Thank you for participating! We look forward to seeing you at 8:00 PM at the Babenberger Hof for the awards ceremony and dinner. Please use your GREEN token to pay for your dinner there.

Have a safe drive!

The Rally Organizer – Ybbs, October 24th - 2026
