Subject: Decision n. 1	Doc.

From: Stewards
To: ALL TEAMS TIMEKEEPING

Received Report nº1 from the Timekeeper Manager – Incorrect GPS point position in vignettes 78/CP3 and 79.

FACTS:

After seeing the Timing Manager's report no. 1, and checking the files sent to the timekeeping provider, a numbering error is detected in 2 consecutive WP: WP2078 and WP2079 (erroneously named as WP2078V)

DECISION:

Taking for granted the duplicity of numbering in said WPs, generating that the timing points had erroneous data and measurements, it is decided: To cancel the Timing points in WP2078 and WP2079.
